

Elgin Mining Inc. reports third quarter results

24.11.2011 | [CNW](#)

VANCOUVER, Nov. 24, 2011 - [Elgin Mining Inc.](#) ("Elgin Mining" or the "Company") (TSXV: ELG) is pleased to report its financial results for the three and nine months ended September 30, 2011. The unaudited interim consolidated financial statements for the three and nine months ended September 30, 2011 and 2010 and notes thereto, along with Management's Discussion and Analysis are available at www.sedar.com and www.elginmining.com. Unless otherwise noted, all financial information is expressed in U.S. dollars.

The Company's goal over the past several months has been to assemble a proven team focussed on advancing the Lupin and Ulu projects towards a drill ready stage. Highlights during and subsequent to the three and nine month period ended September 30, 2011 are:

- On July 8, 2011, the Company completed the acquisition of the Lupin gold mine and the Ulu gold deposit.
- Assembled an experienced exploration team to advance both the Lupin and Ulu projects.
- Completed a detailed data review for the Lupin project and commenced the same for Ulu.
- Completed a ground geophysics and sampling program on specific areas at Lupin in order to better identify regional drill targets for drilling in 2012.
- Completed a review of the main Lupin mine extensions for potential to expand the Lupin mine both to the east and west.
- Commenced surface drilling at the Lupin mine site in order to test extensions of the main ore body including the West Zone South of Shaft (WZSOS) and the eastern extension.
- On November 7, 2011, announced a best efforts flow-through financing with a syndicate of co-lead agents for a minimum of Cdn\$6 million, at a price of Cdn\$1.40 per share (the "Offering"). In connection with the private placement, the agents are to receive a cash commission equal to six per cent of the gross proceeds raised and non-transferable broker warrants equal to 6 per cent of the flow-through shares issued. Each broker warrant is exercisable for one common share of the Company for a period of 24 months at a price of Cdn\$1.40 per common share.
- On August 8, 2011, the Company completed the sale of its 68% interest in Silver Reef Resources Ltd. ("Silver Reef"), to Angus Mining (Namibia) Inc. As consideration for the sale of the interest in Silver Reef, the Company received Cdn\$1,000,000 and 4,411,764 shares of Angus Mining (Namibia) Inc.
- On July 8, 2011, Patrick Downey was appointed Elgin's President and Chief Executive Officer, in addition to his role as a director of the Company. Robert Buchan, the Company's previous Chief Executive Officer has retained his role as Chairman of the Board.
- For the three months ended September 30, 2011, the Company generated a net loss attributable to common shareholders of \$1,918,827 or \$0.03 per share. The loss was primarily related to general and administrative costs, non-cash share-based payment expense, exploration and evaluation costs and a non-cash adjustment to the Company's provision for reclamation and remediation. This was offset to some extent by other net income, which includes a gain on the disposition of the Company's 68% interest in Silver Reef.
- For the nine months ended September 30, 2011, the Company generated a net loss attributable to common shareholders of \$4,983,742 or \$0.09 per share. The loss was primarily related to a loss from discontinued operations, as well as general and administrative expenses, share-based payments expense and a non-cash adjustment to the Company's provision for reclamation and remediation.
- At September 30, 2011, the Company had cash and cash equivalents of \$10,996,069 and restricted cash of \$28,708,014.

The following table summarizes the key financial data for the three and nine months ended September 30, 2011 and 2010.
