PERTH, Australia, Jan. 9, 2012 /CNW Telbec/ - [Anvil Mining Limited](#) (TSX: AVM) (ASX: AVM) ("Anvil" or the "Company"). Reference is made to the offer by MMG Malachite Limited (the "Offeror"), a wholly owned indirect subsidiary of [Minmetals Resources Limited](#) ("MMR"), to purchase all of the Common Shares of Anvil on a fully-diluted basis (including those Common Shares that are subject to CHES Depository Interests) at a purchase price of C\$8.00 per share in cash (the "Offer").

The Offeror has now extended the expiry time of the Offer, from 8:00 pm (Toronto time) on January 11, 2012, to 8:00 p.m. (Toronto time) on February 16, 2012, unless the Offer is further extended or withdrawn. By virtue of this extension, the "CDI Expiry Time" as defined in the Offer and Offer documents, has been automatically extended to 7:00 p.m. (Sydney time) on February 14, 2012, unless the Offer is further extended or withdrawn.

Since the initial announcement of the takeover bid on September 29, 2011, Anvil and MMR have been consulting with various stakeholders in the Democratic Republic of Congo ("DRC"). As announced on October 31, 2011, during consultations with La Générale des Carrières et des Mines Sarl ("Gécamines"), Anvil and MMR were advised that if the takeover is completed without Gécamines' prior approval, Anvil's local DRC subsidiaries would be in breach of the terms of the lease of the mineral tenure for the Kinsevere Project and the terms of the joint venture agreement in respect of the Mutoshi Project. There can be no assurance that the parties will reach agreement on the terms of revised commercial arrangements with Gécamines. The approval of MMR would be required in order for Anvil to implement revised arrangements with Gécamines.

The Kinsevere Project is held as to 95% by a wholly-owned Congolese subsidiary of Anvil, which in turn holds a lease from Gécamines of the underlying mineral tenures. The remaining 5% interest in the Kinsevere Project is held by a private Congolese company, Mining Company Katanga SPRL ("MCK"). During the course of the ongoing discussions with Gécamines, Anvil and MMR have been advised by MCK that its prior approval of the takeover bid is required. MCK has also made allegations to the effect that its rights under the shareholders' agreement governing the Kinsevere Project have not been respected by Anvil.

Anvil's position is that there is no legal requirement for the approval of either Gécamines' or MCK under any of its contractual documentation with either entity in connection with the proposed change of control and that Anvil has fully complied with its contractual obligations. As previously disclosed, there will be a requirement to give Gécamines a right of pre-emption in connection with the Mutoshi Project, which MMR and Anvil are fully aware of and intend to comply with. MMR and Anvil have previously agreed that Anvil's 70% interest in the Mutoshi Project has a value of US\$52.5 million.

Discussions with each of Gécamines and MCK by Anvil and its advisors and with MMR are ongoing. There can be no assurance that the parties will reach agreement on revised commercial arrangements with Gécamines or any agreement with MCK relating to its demands and allegations, in both cases on terms satisfactory to MMR. Consequently, there can be no assurance that MMR will consummate the Offer.
