The Nord Gold Financial Statements are consolidated to include High River and consequently include segmented information attributable to High River. However, the Nord Gold Financial Statements should not be relied upon to provide the same financial disclosure that will be included in the financial statements for the year ended December 31, 2011 (the 'High River Financial Statements') because of differences in, among other things, the basis of preparation and functional currency. Readers should therefore exercise caution in reviewing the Nord Gold Financial Statements, which are available at www.nordgold.com (at www.nordgold.com), not rely on them for any purpose and regard them as informational only.

High River expects to file the High River Financial Statements on or before March 30, 2012, together with the related management discussion and analysis and annual information form, once such documents have been finalized and approved by the board of directors of High River.
