

# Troy Resources Limited: Company Presentation

04.04.2012 | [Marketwired](#)

*NOT FOR DISTRIBUTION TO UNITED STATES NEWSWIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES*

PERTH, WESTERN AUSTRALIA -- ([Marketwire](#) - April 4, 2012) - Growing junior gold producer, [Troy Resources Limited](#) (ASX:TRY) (TSX:TRY) is pleased to advise that a video of the latest Troy presentation made by Troy CEO Paul Benson at the ASX Conference in New York in March is now available on the Troy website at:

<http://www.troyres.com.au/media-centre/webcasts.html>

*The presentation includes a video overview of the high-grade, low-cost Casposo gold and silver mine in Argentina.*

*Geological information in the Presentation has been compiled by Troy's Vice President Exploration & Business Development, Peter Doyle, who:*

- *Is a full time employee of Troy Resources Limited*
- *Has sufficient experience which is relevant to the type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'*
- *Is a Member of the Australasian Institute of Mining and Metallurgy*
- *Has consented in writing to the inclusion of this data*

*Information of a scientific or technical nature in this presentation was prepared under the supervision of Peter J. Doyle, Vice President Exploration and Business Development of Troy, a "qualified person" under National Instrument 43-101 - "Standards of Disclosure for Mineral Projects", a member of the Australasian Institute of Mining and Metallurgy. Mr. Doyle has sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration, and to the activity he is undertaking, to qualify as a "competent person" as defined in the 2004 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr. Doyle has reviewed and approved the information contained in this presentation. For further information regarding the Company's projects in Brazil, Australia and Argentina, including a description of Troy's quality assurance program, quality control measures, the geology, samples collection and testing procedures in respect of the Company's projects please refer to the technical reports filed which are available under the Company's profile at [www.sedar.com](http://www.sedar.com) or on the company's website.*

*The presentation contains "forward-looking statements" and "forward-looking information", based on assumptions and judgements of management regarding future events and results. Such "forward-looking statements" and "forward-looking information" which may include, but are not limited to statements with respect to the expected further development of the Casposo mine. Often, but not always, forward-looking information can be identified by the use of words such as "plans", "expects", "is expected", "is expecting", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes", or variations (including negative variations) of such words and phrases, or state that certain actions, events or results "may", "could", "would", "might", or "will" be taken, occur or be achieved. The purpose of forward-looking information is to provide the audience with information about management's expectations and plans. The audience are cautioned that forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Troy and/or its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors include, among others, future prices of gold and silver, the actual results of current production, development and/or exploration activities, changes in project parameters as plans continue to be refined, variations in ore grade or recovery rates, plant and/or equipment failure, delays in obtaining governmental approvals or in the commencement of operations, the possibility of cost overruns, as well as those factors disclosed in the Company's filed documents. There can be no assurance that the projects will proceed as planned or that they will be successfully completed within expected time limits and budgets or that, when completed, the mines will operate as anticipated or that expected production levels will*

*be achieved.*

## **ABOUT TROY RESOURCES**

Troy Resources (ASX:TRY)(TSX:TRY) is a dividend-paying junior gold producer, with a clear growth strategy. The Company has two producing gold operations; Andorinhas Mine in Para State, Brazil and the Casposo gold and silver mine, in San Juan province, Argentina.

Troy has an experienced Board and management team with a track record of successful, fast-track mine development and low-cost operations.

Troy has an annual exploration budget in excess of \$15 million and a proven track record in exploration discoveries and strategic acquisitions.

Following the development of the Casposo project in Argentina, Troy has entered a renewed growth phase which will again lift the Company's annual gold production above 100,000 ounces of gold per annum.

The Company is well positioned to continue its path of strong growth and profitable operations, and on track to achieve its vision of becoming a highly profitable mid-tier gold producer with a portfolio of quality long-life assets.

The Company maintains a robust balance sheet and forecasts continued strong cash flow from its current assets. Troy's gold production is unhedged; allowing its shareholders access to the full benefit of current and future gold price upside.

Troy is a responsible corporate citizen, committed to the best practice of health and safety, environmental stewardship and social responsibility.

ABN: 33 006 243 750
