

Rodinia Lithium Strengthens Ties to Salta, Argentina With the Addition of Rodrigo Javier De La Serna Correas to Its Board of Directors

12.09.2012 | [Marketwired](#)

TORONTO, 09/12/12 - [Rodinia Lithium Inc.](#) ("Rodinia" or the "Company") (TSX VENTURE: RM)(OTCQX: RDNAF) is pleased to announce the appointment of Mr. Rodrigo Javier de la Serna Correas to the Company's Board of Directors. Mr. de la Serna will be instrumental in providing legal, financial, and strategic guidance to the Company in Salta, as Rodinia continues its strategy of becoming a high-grade, low-cost producer of lithium carbonate and potash. The Company welcomes Mr. de la Serna to the Board and looks forward to working with him as the Company's strategic focus is realized.

Mr. de la Serna is a commercial lawyer residing in Salta, Argentina where he has practiced law for over a decade. As legal advisor to the Government of Salta Province, Mr. de la Serna participated in the creation of a state run company known as Recursos Energeticos y Mineros S.A. ("REMSA"). REMSA was created in May, 2008 with the purpose of exploring and developing mineral properties, with a focus on renewable energy sources. REMSA currently controls the natural gas supply of the Puna region and plays an active role in mining within the Province of Salta. Mr. de la Serna has since become involved with various mining enterprises and has successfully helped finance, commercialize and/or develop a number of projects.

William Randall, Rodinia's President & CEO, commented, "We are extremely pleased to welcome Mr. de la Serna to the board, adding a vital presence in Salta through his distinguished status within the community. Mr. de la Serna will bring a wealth of experience to the board as we develop the Salar de Diablillos through to commercial production."

Mr. de la Serna replaces Mr. David Stein who tendered his resignation from the Board of Directors of the Company effective September 4, 2012. Mr. Stein has resigned in order to focus on other work commitments, however, he has agreed to remain involved with the Company on an advisory basis.

William Randall added, "David has been a key member of the Rodinia team over the past four years, and played an instrumental role in helping the Company transition into the lithium-brine exploration and development business. On behalf of the board and management team, I would like to thank him for his contributions to the success of the Company and wish him well in his other endeavours."

In connection with his appointment to the board of directors, the Company has granted Mr. de la Serna 200,000 stock options of the Company. The options shall be exercisable at \$0.17 and shall expire on September 12, 2017. The options remain subject to the receipt of regulatory approval, including the approval of the TSX Venture Exchange, and shall remain subject to a statutory four month hold period.

About Rodinia Lithium Inc.

[Rodinia Lithium Inc.](#) is a Canadian mineral exploration and development company with a primary focus on Lithium exploration and development in North and South America. The Company is also actively exploring the commercialization of a significant Potash co-product that is expected to be recoverable through the lithium harvesting process.

Rodinia's Salar de Diablillos lithium-brine project in Salta, Argentina, contains a recoverable resource of 2.82 million tonnes lithium carbonate equivalent and 11.27 million tonnes potassium chloride equivalent. The project contains a recoverable inferred resource of 952,553,000 m³ grading 556 mg/L lithium and 6,206 mg/L potassium. Throughout 2012, Rodinia will focus on continuing to develop the Diablillos project by completing additional drilling and advancing through feasibility study.

The Company also holds 100% mineral rights to approximately 70,000 acres in Nevada's lithium-rich Clayton Valley in Esmeralda County, and is currently in the process of assessing the size, quality and processing alternatives of this deposit. The Clayton Valley project is located in the only known lithium-brine bearing salt lake in North America, and looks to represent the only new source for domestic lithium carbonate supply.

The Projects are supervised by Ray Spanjers, Rodinia's Manager of Exploration. Mr. Spanjers is considered

a Qualified Person, as defined by National Instrument 43-101 and has reviewed and approved the scientific and technical contents of this press release.
