

Canada Coal Inc. Obtains 2012 Mining Permits to Explore Its Arctic Coal Properties

14.06.2012 | [Marketwired](#)

VANCOUVER, June 14, 2012 - [Canada Coal Inc.](#) (the "Company" or "Canada Coal"), (TSX VENTURE:CCK) is pleased to announce that it has now received all of the required permits to commence its 2012 exploration program focused on improving ore body knowledge with a view to discovering significant high grade metallurgical coal deposits in its arctic coal licence areas. These work programs are expected to commence as soon as June 16, 2012 and will consist of various mapping and sampling programs that will be focussed on the Company's West Fosheim license areas.

Braam Jonker, CEO and President commented, "We are excited to commence operations on our Fosheim coal licence areas now that all of the required permits are in place. We are very pleased with the co-operation and support that we have received to date from both the regulatory authorities and the community. We believe that the Company has the potential to add meaningful economic value to the Territory of Nunavut and the community at large whilst also creating significant shareholder value."

About Canada Coal

Canada Coal is a publically listed company focused on coal exploration and development in Nunavut. Through its two wholly-owned subsidiaries, Canada Sovereign Coal Corp. and 5200 Nunavut Ltd., Canada Coal holds 75 active licenses comprising approximately 2,442,627 acres located on Ellesmere Island and Axel Heiberg Island in Nunavut (the "Nunavut Coal Property").
