Corporate

- On July 18, 2012, [Nord Gold N.V.](#) ("Nordgold") announced its intention to make a formal offer to acquire the

common shares ("Common Shares") of the Company that Nordgold and its affiliates do not already own, including Common Shares issuable upon exercise of convertible High River securities, for a price per Common Share, at the option of the tendering shareholder, of either: (a) 0.285 global depositary receipts of Nordgold; or (b) \$1.40 in cash (the "Offer").

- On July 18, 2012, the board of directors of the Company (the "Board") established a special committee of independent directors (the "Special Committee") to consider the Offer, alternatives to the Offer and engage a financial advisor to prepare the formal valuation of High River in accordance with Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The Special Committee engaged Paradigm Capital Inc. ("Paradigm Capital") to prepare the formal valuation. The Special Committee also engaged Fraser Milner Casgrain LLP as its legal counsel.

- The Company filed on SEDAR an amended and restated annual information form ("AIF") for the year ended December 31, 2011. The original AIF was filed on March 30, 2012. The amended and restated AIF now provides updated mineral reserve and mineral resource estimates for the Zun- Holba, Irokinda, and Berezitovy mines in Russia, as well as High River's properties in Burkina Faso. In addition, the Company filed updated certificates of the Chief Executive Officer and the Chief Financial Officer for the year ended December 31, 2011, as required under National Instrument 52-109 - Certification of Disclosure in Issuers' Annual and Interim Filings.

- The Company also filed on SEDAR revised technical reports with respect to its Berezitovy and Burkina Faso properties that address minor deficiencies in the original technical reports filed on June 8, 2012. The technical report on the Berezitovy mine entitled "The Berezitovy Project, Russia, NI 43-101 Technical Report" dated July 20, 2012, was prepared by Mark Owen, BSc, MSc, MCSM, CGeol, EurGeol, FGS of Wardell Armstrong International ("WAI"). The technical report on the Bissa gold project entitled "The Bissa Asset, Burkina Faso, NI 43-101 Technical Report" dated July 20, 2012, was also prepared by Dr. Newall. Each of Mr. Owen and Dr. Newall is a "qualified person" as that term is defined in National Instrument 43-101 - Standards of Disclosure for Mineral Projects ("NI 43-101") and independent of the Company.

Subsequent Events

- On October 22, 2012, High River acknowledged that Nordgold filed its take-over bid circular and formally commenced the previously announced Offer. The valuation prepared by Paradigm Capital was included in the take-over bid circular prepared by Nordgold. In the valuation, Paradigm Capital was of the opinion that, based upon and subject to the analyses, assumptions, qualifications and limitations discussed in the valuation, and such other factors as Paradigm Capital considered relevant, as of October 16, 2012, the fair market value of High River was in the range of \$1.33 to \$1.80 per share. Furthermore, Paradigm Capital was of the opinion that, as of October 16, 2012, the value of Nordgold was in the range of \$4.02 to \$6.60 per share.

- On October 31, 2012, High River announced that it mailed to its shareholders a Directors' Circular as required by applicable securities laws in response to the Offer. A copy of the Directors' Circular is available online at www.sedar.com. The Board of High River (with those directors who are nominees of Nordgold abstaining), upon the unanimous recommendation of its Special Committee, unanimously recommended that High River shareholders accept the Offer and tender their Common Shares to the Offer.
