## **About Dolly Varden**

<u>Dolly Varden Silver Corporation</u> is a Canadian based mineral exploration company focused on the exploration and development of the Dolly Varden Silver project located in northwestern British Columbia. The Company's common shares are listed and traded on the TSX-V under the symbol DV and in the U.S. under the symbol DOLLF. The Dolly Varden Silver project consists of 9,400 hectares which includes four well defined high grade silver deposits, two of which have seen historic production totaling 20 million ounces. All four deposits have remaining historic silver resources and are situated in the same geologic setting as the past-producing Eskay Creek deposit. The Company has two strategies for creating value at the Dolly Varden Silver project: to confirm and expand the existing historic silver resources with the goal to re-start the historic deposits; and to explore a major untested Eskay Creek-type gold and silver rich VMS target at the Dolly Varden Silver project.
