## Americas Bullion Royalty Corp.

Americas Bullion Royalty Corp. will focus on royalty and streaming assets providing revenue as well as lower risk exposure to shareholders through project diversity in first world jurisdictions. The Company's existing portfolio is highlighted by Gross in-kind Royalties on Midway Gold's Pan and Gold Rock deposits, as well as 2 separate projects encompassing more than 34 square miles at Barrick's Bald Mountain project in Nevada.

The Company holds additional royalties including a Net Smelter Royalty on the Taylor Silver project and a portion of the Tonkin Springs project also in Nevada. The entire package comprises more than 100,000 acres located primarily in Nevada, with 7 of the projects located in Wyoming, Oregon, California and Mexico. Current royalty revenue is anticipated to experience acceleration as early as 2014 as several of these projects begin to advance. As Americas Bullion Royalty Corp., the Company's royalty portfolio is unique in the mineral development industry due to its ability to receive the majority of projected revenues in-kind (gold bullion as opposed to cash), its possession of gross royalties with no exposure to operator cost, as well as its security of title with no buyback or buyout provisions.

## Background Information

Golden Predator Corp. announced on January 18, 2013 a planned change of name in order to focus on royalty and streaming by building on its existing portfolio of 34 projects. The Company's subsidiary, Golden Predator Canada Corp. will continue to maintain its core property holdings on a care and maintenance basis with permitting continuing on the Brewery Creek Project.
