## **Americas Bullion Royalty Corp.**

[Americas Bullion Royalty Corp.](#) is a precious metals royalty and streaming company designed to provide revenue as well as lower risk exposure to shareholders through project diversity in stable, mining-friendly jurisdictions. The Company's existing 34 property portfolio, comprising more than 100,000 acres predominantly in Nevada, is highlighted by Gross in-kind Royalties on Midway Gold's Pan and Gold Rock deposits, as well as 2 separate projects encompassing more than 34 square miles at Barrick Gold's Bald Mountain project in Nevada.

The Company's royalty revenue is expected to accelerate as early as 2014 as several of its royalty projects commence production. The Company's prime royalty portfolio is unique in the mineral royalty industry due to its ability to receive the majority of projected revenues in-kind (gold bullion as opposed to cash), its concentration of gross royalties with no exposure to operator cost, as well as its security of future revenues with no buyback or buyout provisions.
