Rokmaster's business model is to utilize its highly experienced team of mineral explorationists and developers to discover significant mineral resources and aggressively advance such projects, and to expose its shareholders to significant capital gain in the near term.

*(The mineral resource estimates are disclosed by Rokmaster at [www.sedar.com](#) or [www.rokmaster.com](#) in a National Instrument 43-101 Report dated July 26, 2012 titled "Independent Technical Report on the Pinaya Gold/Copper Property, Caylloma and Lampe Provinces, Peru, for Rokmaster Resources Corp. The mineral resources fall within a volume or shell defined by long-term metal price estimates of US\$3.00/lb for copper and US\$1,100.00/oz for gold.)
