

# Rokmaster Announces Manuel Delgado Nachtigall Joins the Board

30.04.2013 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA -- (Marketwired - April 30, 2013) - [Rokmaster Resources Corp.](#) ("Rokmaster" or the "Company") (TSX VENTURE:RKR)(LMA:RKR) is pleased to announce that Manuel Delgado Nachtigall has joined the Board of Directors. Mr. Delgado is a Peruvian citizen. He is a Partner & Director of the RPP Group with over 30 years' experience in the telecommunication business in Peru. The RPP Group is a diversified media holding company. Mr. Delgado holds a Bachelor of Business Administration from the University of Lima and has maintained a business relationship for over five years with BO Consulting S.A. a Peruvian based mineral services company, focused on geology and hydrology.

"As part of our recently announced listing of the Company's common shares on the Bolsa de Valores de Lima ('BVL') Rokmaster has made several positive and exciting steps towards ensuring active Peruvian involvement in the development of our Pinaya Project," stated John Mirko, President and CEO of Rokmaster. "It is important to ensure that Peruvians are involved in the Company not only as stakeholders but also as both shareholders and management. Manuel will be providing our management team and Board of Directors insight into Peru's political and fiscal environment and will be helping guide us so that the development of the Pinaya Project will be done with the best interest of Peruvians and shareholders alike."

## ABOUT ROKMASTER

[Rokmaster](#) is a mineral exploration and development company working in North and South America. The Company has two mineral exploration projects including the Pinaya copper gold project in southern Peru. While these properties are largely at early stages of development they represent exiting opportunities for the discovery of significant precious and base metal mineralization as evidenced at Pinaya (Gold Oxide Zone: Measured + Indicated ("M+I") mineral resources of 6,401,000 tonnes @ 0.79g/t Au and Inferred ("Inf") of 2,383,000 tonnes @ 0.59g/t Au and in the NW and West Porphyry Zone; M+I : 32,269,000 tonnes @ 0.43g/t Au + 0.39% Cu and Inf : 35,412,000 tonnes @ 0.27g/t Au + 0.40% Cu.\*). Rokmaster's business model is to utilize its highly experienced team of mineral explorationists and developers to discover significant mineral resources and aggressively advance such projects, and to expose its shareholders to significant capital gain in the near term.

\*(The mineral resource estimates are disclosed by Rokmaster at [www.sedar.com](#) or [www.rokmaster.com](#) in a National Instrument 43-101 Report dated July 26, 2012 titled "Independent Technical Report on the Pinaya Gold/Copper Property, Caylloma and Lampa Provinces, Peru, for Rokmaster Resources Corp. By prescribed definition, "mineral resources" do not have demonstrated economic viability. An Inferred mineral resource is that part of a mineral resource for which quantity and grade can be estimated on the basis of geological evidence and limited sampling and reasonably assumed, but not verified, geological and grade continuity. The mineral resources fall within a volume or shell defined by long-term metal price estimates of US\$3.00/lb for copper and US\$1,100.00/oz for gold.)

Mark Rebagliati, P.Eng., a Qualified Person as defined under National Instrument 43-101, is supervising the quality assurance and quality control programs and exploration on behalf of Rokmaster and has reviewed the technical content of this release.

On behalf of the Board of Directors of ROKMASTER RESOURCES CORP.

John Mirko  
President & Chief Executive Officer
