

# Brigus Gold Corp. Resumes Milling Operations

31.05.2013 | [Business Wire](#)

HALIFAX, Nova Scotia -- (BUSINESS WIRE) -- [Brigus Gold Corp.](#) ("Brigus" or the "Company") (NYSE MKT: BRD; TSX: BRD) reports that milling operations resumed on May 31, 2013. As previously reported, milling operations were suspended on May 12th, 2013 due to higher than recommended water levels in the holding and water management facilities at the Black Fox mill. Underground and open pit mining operations at the Black Fox mine were not affected by the temporary mill suspension and the Company continued to stock pile ore which is now being processed at the Black Fox mill. During this period, the Company also completed various other maintenance activities related to milling operations.

## About Brigus Gold

Brigus is a growing gold producer committed to maximizing shareholder value through a strategy of efficient production, targeted exploration and select acquisitions. The Company operates the wholly owned Black Fox Mine and Mill in the Timmins Gold District of Ontario, Canada. The Black Fox Complex encompasses the Black Fox Mine and adjoining properties in the Township of Black River&#8208;Matheson, Ontario, Canada. Brigus also owns the Goldfields Project located near Uranium City, Saskatchewan, Canada, which hosts the Box and Athona gold deposits. In the Dominican Republic, Brigus has signed an agreement to sell its remaining interests in three mineral exploration projects. In Mexico, Brigus owns the Ixhuatan Project located in the state of Chiapas.

## Cautionary and Forward&#8208;Looking Statements

*Statements contained in this news release, which are not historical facts, are forward&#8208;looking statements that involve risk, uncertainties and other factors that could cause actual results to differ materially from those expressed or implied by such forward&#8208;looking statements. All statements regarding the ability of the Company to achieve its production, total cash costs, steady state annual production and mining rate estimates; estimated average gold grades for the open pit and underground operations; increase in gold production; increase in profitability; exploration drill results and resource additions, are forward&#8208;looking statements and estimates that involve various risks and uncertainties. This forward&#8208; looking statements include, or may be based upon, estimates, forecasts, and statements as to management's expectations with respect to, among other things, the outcome of legal proceedings, the issue of permits, the size and quality of the Company's mineral resources, progress in development of mineral properties, future production and sales volumes, capital and mine production costs, demand and market outlook for metals, future metal prices and treatment and refining charges, and the financial results of the Company.*

*Important factors that could cause actual results to differ materially from these forward&#8208;looking statements include environmental risks and other factors disclosed under the heading "Risk Factors" in Brigus' most recent Annual Information Form and Management Discussion and Analysis filed under the Company's name at [www.sedar.com](http://www.sedar.com) and annual report on Form 40F filed with the United States Securities and Exchange Commission at [www.sec.gov](http://www.sec.gov) as well as elsewhere in Brigus' documents filed from time to time with the Toronto Stock Exchange, the NYSE Amex Equities, the United States Securities and Exchange Commission and other regulatory authorities. All forward&#8208;looking statements included in this news release are based on information available to the Company on the date hereof. The Company assumes no obligation to update any forward&#8208;looking statements, except as required by applicable securities laws.*
