

# NWM Mining Corporation Announces Issuance of Bonus Shares

28.06.2013 | [CNW](#)

ORONTO, June 28, 2013 /CNW/ - [NWM Mining Corporation](#) ("NWM" or the "Company") (TSX-V: NWM) announces that, further to its news release dated June 14, 2013, it has paid \$75,000 USD and issued 28,533,000 common shares (the "Bonus Shares") to the Company's lender, Global Resource Fund (the "Lender"), as the initial extension fee for extending the maturity date on the Company's current debt facility (the "Facility") of \$18,500,000 USD. Following the issuance of the Bonus Shares, the Lender holds 60,033,008 common shares in the capital of NWM.

The due date on the Company's current debt facility has been extended from June 2013 to September 2014 and the effective interest rate on the principal will be reduced from 15% to 12.5% per annum. The revised interest rate has the potential to reduce interest payments over the period by approximately \$500,000 USD. In order to reduce the interest rate and fully extend the loan until September 30, 2014, there are several conditions which must be satisfied by September 30, 2013 (see news release dated June 14, 2013 for further details).

The transaction is subject to the final approval of the TSX Venture Exchange. The Bonus Shares are subject to a four month and one day hold period expiring on October 27, 2013.

## About NWM Mining Corporation

NWM is in commercial gold production at its wholly owned Lluvia-Jojoba gold mine. The mine is an open pit heap leach operation in Sonora State, Mexico. Management believes the property is significantly under-explored and hosts potential to provide further gold discoveries and resource and reserve upgrades. While management has focused in the past on developing the mine and supporting cash flows, the focus in 2013 will shift to increasing mining rates and drilling to expand geological resources and reserves.
