

Avino Announces Results of Annual General and Special Meeting

05.07.2013 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Jul 5, 2013) - **Avino Silver & Gold Mines Ltd. (TSX VENTURE:ASM)(NYSE MKT:ASM)(BERLIN:GV6)(FRANKFURT:GV6) ("Avino" or the "Company")** is pleased to announce that it received approval for all proposals submitted to shareholders at its Annual General and Special Meeting held on Thursday, July 27, 2013.

Shareholders elected five nominees to serve a one-year term on the Board of Directors: Michael Baybak, Andrew Kaplan, Robertson, David Wolfen, and Jasman Yee.

In addition, shareholders also approved:

- the re-appointment of Manning Elliott LLP as Auditors for the Company for the ensuing year at the remuneration approved by the directors;
- a new 10% Rolling Stock Option Plan;
- the re-pricing of Insiders' Incentive Stock Options;
- the adoption of a Shareholders' Rights Plan; and
- the amendment of the existing Articles of the Company by inserting the Advance Notice Provision.

"We greatly appreciate and acknowledge the strength and support of our shareholders. We are well positioned for further expansion, production growth, low cost performance and real cash flow that will enable Avino's continued responsible development," said David Wolfen, President and CEO.

About Avino

Founded in 1968, Avino's mission is to create shareholder value through profitable organic growth at the historic Avino mine near Durango, Mexico. We are committed to managing all business activities in an environmentally responsible and cost-effective manner while contributing to the well-being of the community in which we operate.

ON BEHALF OF THE BOARD

David Wolfen, President & CEO

Safe Harbor Statement - This news release contains "forward-looking information" and "forward-looking statements" (together, "forward looking statements") within the meaning of applicable securities laws and the United States Private Securities Reform Act of 1995, including our belief as to the extent and timing of various studies including the PEA, and exploration of the potential tonnage, grades and content of deposits, timing and establishment and extent of resources estimates. The forward-looking statements are made as of the date of this news release and the dates of technical reports, as applicable. They are cautioned not to place undue reliance on forward-looking statements, as there can be no assurance that the future circumstances, outcomes or results anticipated in or implied by such forward-looking statements will occur or that plans or expectations upon which the forward-looking statements are based will occur. While we have based these forward-looking statements on our expectations about future events as at the date that such statements were prepared, the statements do not guarantee that such future events will occur and are subject to risks, uncertainties, assumptions and other factors which could cause events or outcomes to differ materially from those expressed or implied by such forward-looking statements.

Such factors and assumptions include, among others, the effects of general economic conditions, the price of gold, silver, copper, changing foreign exchange rates and actions by government authorities, uncertainties associated with legal proceedings and negotiations and misjudgments in the course of preparing forward-looking information. In addition, there are known and unknown risk factors which could cause our actual results, performance or achievements to differ materially from any forward-looking information.

performance or achievements expressed or implied by the forward-looking statements. Known risk factors include risks with project development; the need for additional financing; operational risks associated with mining and mineral processing; fluctuations in metal prices; title matters; uncertainties and risks related to carrying on business in foreign countries; environmental liability claims and insurance; reliance on key personnel; the potential for conflicts of interest among certain of our officers or promoters of with certain other projects; the absence of dividends; currency fluctuations; competition; dilution; the volatility of our common share price and volume; tax consequences to U.S. investors; and other risks and uncertainties. Although we have attempted to identify important factors that could cause actual actions, events or results to differ materially from those contained in our forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future performance could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on our forward-looking statements. We are under no obligation to update or alter any forward-looking statements except as required by applicable securities laws.

Cautionary Note to United States Investors - The information contained herein and incorporated by reference herein has been prepared in accordance with the requirements of Canadian securities laws, which differ from the requirements of United States securities laws. In particular, the term "resource" does not equate to the term "reserve". The Securities Exchange Commission (the "SEC") disclosure standards normally do not permit the inclusion of information concerning "measured mineral resources", "indicated mineral resources" or "inferred mineral resources" or other descriptions of the amount of mineralization in mineral deposits that do not constitute "reserves" by SEC standards, unless such information is required to be disclosed by the Company's jurisdiction of incorporation or of a jurisdiction in which its securities are traded. U.S. investors should also understand that "inferred mineral resources" have a great amount of uncertainty as to their existence and great uncertainty as to their economic and legal feasibility. Disclosure of "contained ounces" is permitted disclosure under Canadian regulations; however, the SEC normally only permits issuers to report mineralization that does not constitute "reserves" by SEC standards as in pounds tonnage and grade without reference to unit measures.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
