

# Argentum Files NI 43-101 Technical Report on its Coyote Project

25.07.2013 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Jul 25, 2013) - **Argentum Silver Corp.** (TSX VENTURE:ASL) announces, the Company has filed a Technical Report (the "Report") under National Instrument 43-101 ("NI 43-101") on its Coyote Project in Jalisco Mexico. The Report is now available on SEDAR and on the Company's website.

The report is authored by James R. Robinson, Certified Professional Geologist (C.P.G.) an independent consulting geologist with over 35 years of experience to author the Report. Mr. Robinson is also a "qualified person" as defined in NI 43-101. Mr. Robinson worked as a consultant for Argentum from July of 2011 through to March of 2012 and supervised exploration programs at the Coyote Project, including the first phase of drilling on the El Tajo vein.

Mr Robinson has proposed a work program for advancing the project. A Phase-III diamond drilling program of eight holes totaling 1,410 metres for approximately \$320,000 has been recommended for the El Tajo vein area of the Coyote Project.

This news release has been reviewed by Mr. Paul Cowley, P.Geo., Senior Geological Consultant and Advisor, and a "Qualified Person" under NI 43-101.

## About Argentum Silver

Argentum has earned a 100% interest in the Coyote silver-gold project and Victoria property located in Jalisco, Mexico. Argentum also owns a 100% interest in the Lachiguiri and Silacayoapan properties, both located in Oaxaca, Mexico.
