ABOUT MOLYCORP

[Molycorp](#) is the only advanced material manufacturer in the world that both controls a world-class rare earth resource and can produce high-purity, custom engineered rare earth products to meet increasingly demanding customer specifications. A globally integrated manufacturer, the Company produces a wide variety of specialized products from 13 different rare earths (lights and heavies), five rare metals (gallium, indium, rhenium, tantalum and niobium), and the transition metals yttrium and zirconium. With 27 locations across 11 countries, Molycorp also produces rare earth magnetic materials through its Molycorp Magnequench subsidiary, including neodymium-iron-boron (NdFeB) magnet powders, used to manufacture bonded NdFeB permanent rare earth magnets. Through its joint venture with Daido Steel and the Mitsubishi Corporation, Molycorp manufactures next-generation, sintered NdFeB permanent rare earth magnets. Through its Molycorp Advanced Water Technologies subsidiary, the Company markets and sells its proprietary, cerium-based advanced water purification technology called SorbX(tm) for use in municipal and industrial wastewater treatment, recreational water, and pool and spa water treatment markets.
