

Hi Ho Silver Resources Inc. Offers Participating Convertible Redeemable Series "A" Preferred Shares Minimum \$500,000 Maximum \$5,000,000

09.08.2013 | [The Newswire](#)

VANCOUVER, CANADA, August 9, 2013 - Hi Ho Silver Resources Inc. ("Hi Ho" or the "Company") (CNSX: HHS), offers up to 5,000,000 participating convertible redeemable Series "A" preferred shares ("Series "A" Preferred Shares").

Net proceeds will be used to conduct one or more bulk sampling programs on Hi Ho's 100%-owned Fairview Gold property, near Oliver, in the Okanagan Valley of southern British Columbia, Canada.

The subscription price is \$1.00 per Series "A" Preferred Share with a minimum financing of \$500,000 and a maximum financing of \$5,000,000 (priced in Canadian Dollars). The Company may elect to offer up to 80% of the Offering on a flow-through basis.

All Series "A" Preferred Shares will carry a participating dividend of 50% of the gross net margins payable quarterly until participating dividends equal to the issue price have been earned by each Series "A" Preferred Share. At that time the dividend will be set at 40% per annum.

Each Series "A" Preferred Share will be convertible into that number of common shares equal to the quotient of (i) the Issue Price plus accrued and unpaid dividends per Preferred Share divided by (ii) the greater of (a) \$0.05 and (b) 80% of the average of the closing prices of the common shares during the 10 trading days immediately preceding the notice of conversion.

The Series "A" Preferred Shares and any common shares, into which they may be converted, may only be resold or transferred in accordance with all applicable legislative and regulatory rules, restrictions and policies.

The Offering is subject to certain conditions including, but not limited to, the receipt of all necessary regulatory approvals. Finder's fees may be paid in certain instances.

The Offering is limited to accredited investors only.

FORWARD LOOKING STATEMENTS

This release contains "forward-looking statements" within the meaning of applicable Canadian securities legislation. Forward-looking statements include, but are not limited to, statements that address activities, events or developments that the Company expects or anticipates will or may occur in the future, including such things as planned exploration activities on the Property, the establishment of a NI 43-101 compliant resource on the Property, future business strategy, competitive strengths, goals, expansion, growth of the Company's businesses, operations, plans and with respect to exploration results, the timing and success of exploration activities generally, permitting time lines, government regulation of exploration and mining operations, environmental risks, title disputes or claims, limitations on insurance coverage, timing and possible outcome of any pending litigation and timing and results of future resource estimates or future economic studies.

Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "planning", "planned", "expects" or "looking forward", "does not expect", "continues", "scheduled", "estimates", "forecasts", "intends", "potential", "anticipates", "does not anticipate", or "belief", or describes a "goal", or variation of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved.

Forward-looking statements are based on a number of material factors and assumptions, including, the result of drilling and exploration activities, that contracted parties provide goods and/or services on the agreed timeframes, that equipment necessary for exploration is available as scheduled and does not incur unforeseen break downs, that no labour shortages or delays are incurred, that plant and equipment function as specified, that no unusual geological or technical problems occur, and that laboratory and other related services are available and perform as contracted. Forward-looking statements involve known and unknown risks, future events, conditions, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from any future results, prediction, projection, forecast, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the interpretation and actual results of current exploration activities; changes in project parameters as plans continue to be refined; the existence of weather conditions suitable for exploration activities; future prices of minerals; possible variations in grade or recovery rates; failure of equipment or processes to operate as anticipated; the failure of contracted parties to perform; labour disputes and other risks of the mining industry; delays in obtaining governmental approvals or financing or in the completion of exploration, as well as those factors disclosed in the company's publicly filed documents. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.
