

Aurcana Appoints New Board Member

12.08.2013 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Aug 12, 2013) - [Aurcana Corp.](#) ("**Aurcana**" or the "**Company**") (TSX VENTURE:AUN)(OTCQX:AUNFF) is pleased to announce the appointment of a new board member.

Mr. Lenic Rodriguez, President & CEO of [Aurcana Corp.](#) states: "I am very pleased to welcome Mr. Andrew Kaczmarek to the Aurcana board. Mr. Kaczmarek's extensive mine operating experience including direct involvement and in depth knowledge of the Shafter mine, strengthens our technical team and brings considerable mine development, operational and technical experience to the board level."

Board of Directors Appointment

Mr. **Andrew F. Kaczmarek** has a Bsc. in Mining Engineering from Royal School of Mining, Imperial College, London and over 40 years of experience in operations, construction, project development and management, with developing and producing companies including Alacer Gold, Kinross Gold, Phelps Dodge, Cyprus Amax, Gold Fields and Hudson Bay Mining and Smelting Co.

Most recently, he was the Chief Operating Officer for [Victoria Gold Corp.](#).

While working for Gold Fields Mining, from 1976-1994, Mr. Kaczmarek was the Chief Engineer of the Gold Fields Shafter Project, now owned and operated by Aurcana. During that time he was in charge with the drilling, installation and commissioning of the two existing 1,000 feet shafts at the Shafter project that may be eventually used by the Company.

His prior involvement with the Shafter mine is an important asset for Aurcana.

Mr. Kaczmarek has also been appointed as the Chair of the Environment, Health & Safety Committee of the Board.

About Aurcana Corporation

[Aurcana Corp.](#) is a primary silver producing company with two producing mines: La Negra Mine in Mexico and Shafter Mine in Texas, US. The Company is in a position to grow organically from its existing mines in its pursuit to become an emerging senior silver producer. Aurcana continues to focus on its future growth.

Corporate

The Company's shares are also traded in the United States on OTCQX under the symbol "AUNFF". Investors can find current financial disclosure and Real-Time Level 2 quotes for the Company on [www.otcqx.com](#) and [www.otcmarkets.com](#).

Lenic Rodriguez, President & CEO

This news release contains certain forward-looking statements, including statements regarding forecast silver production, silver grades, recoveries, potential mineralization, exploration results, future plans and objectives of the Company, the completion of a debt financing and silver offtake agreement, and the business and anticipated financial performance of the Company. These statements are forward-looking

statements that involve various risks and uncertainties. These forward-looking statements include, but are not limited to, statements with respect to mining and processing of mined ore, achieving projected recovery rates, anticipated production rates and mine life, operating efficiencies, costs and expenditures, changes in mineral resources and conversion of mineral resources to proven and probable reserves, and other information that is based on forecasts of future operational or financial results, estimates of amounts not yet determinable and assumptions of management.

Exploration results that include geophysics, sampling and drill results on wide spacings may not be indicative of the occurrence of a mineral deposit. Such results do not provide assurance that further work will establish sufficient grade, continuity, metallurgical characteristics and economic potential to be classified as a category of mineral resource. A mineral resource which is classified as "inferred" or "indicated" has a great amount of uncertainty as to its existence and economic and legal feasibility. It cannot be assumed that any or part of an "indicated mineral resource" or "inferred mineral resource" will ever be upgraded to a higher category of resource. Investors are cautioned not to assume that all or any part of mineral deposits in these categories will ever be converted into proven and probable reserves.

Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "expects" or "does not expect", "is expected", "anticipates" or "does not anticipate" "plans", "estimates" or "intends" or stating that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved) are not statements of historical fact and may be "forward-looking statements". Forward-looking statements are subject to a variety of risks and uncertainties which could cause actual events or results to materially differ from those reflected in the forward-looking statements.

Actual results may differ materially from results contemplated by the forward-looking statements. Important factors that could differ materially from the Company's expectations include, among others, risks related to international operations, unsuccessful exploration results, the ability of suppliers to provide equipment, the availability of skilled labour, conclusions of economic evaluations and changes in project parameters as plans continue to be refined as well as changes in metal prices, changes in the availability of funding for mineral exploration and development, unanticipated changes in key management personnel and general economic conditions. When relying on forward-looking statements to make decisions, investors and others should carefully consider the foregoing factors and other uncertainties and should not place undue reliance on such forward-looking statements. The Company does not undertake to update any forward-looking statements, oral or written, made by itself or on its behalf, except as required pursuant to applicable securities laws. Accordingly, readers should not place undue reliance on forward-looking statements.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
