

# Avino Retains Consulting Mining Engineer

13.08.2013 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Aug 13, 2013) - **Avino Silver & Gold Mines Ltd. ("Avino" or "the Company")** (TSX VENTURE:**ASM**)(NYSE MKT:**ASM**)(FRANKFURT:**GV6**) today announced that it has retained Mr. Fred Sveinson, B.A., B.Sc., P.Eng as a consulting mining engineer. Mr. Sveinson will primarily provide input on major strategic decisions.

Mr. Sveinson is a professional mining engineer with more than 40 years' experience in Canada and internationally in the development, construction and operation of mines for major mining companies. During the last 15 years Mr. Sveinson has been involved in the junior exploration business in exploration, financing and management. Currently Mr. Sveinson is a director of several public exploration or development companies. He also provides consulting services to the mining industry. Mr. Sveinson was a graduate of the University of Saskatchewan in 1970 with a Bachelor of Science in Mining Engineering. He is also a graduate of the University of Waterloo with a Bachelor of Arts in General Economics.

Mr. Sveinson's appointment strengthens the operational expertise at Avino, and will contribute valuable experience to the company's objectives of expansion and cost reduction in order to increase profitability. His wide-ranging experience and understanding of mine engineering and optimization will help maximize the value of Avino's current operations and ongoing expansion.

*"Avino's operation is growing rapidly and we are happy to have Mr. Sveinson, an experienced mining engineer, involved to complement our existing staff. Mr. Sveinson brings a wealth of experience that will prove valuable as we continue to implement our expansion plans."*

- David Wolfin, President, CEO & Director, Avino Silver & Gold Mines Ltd.

Safe Harbor Statement - This news release contains "forward-looking information" and "forward-looking statements" (together, the "forward looking statements") within the meaning of applicable securities laws and the United States Private Securities Litigation Reform Act of 1995, including our belief as to the extent and timing of various studies including the PEA, and exploration results, the potential tonnage, grades and content of deposits, timing and establishment and extent of resources estimates. These forward-looking statements are made as of the date of this news release and the dates of technical reports, as applicable. Readers are cautioned not to place undue reliance on forward-looking statements, as there can be no assurance that the future circumstances, outcomes or results anticipated in or implied by such forward-looking statements will occur or that plans, intentions or expectations upon which the forward-looking statements are based will occur. While we have based these forward-looking statements on our expectations about future events as at the date that such statements were prepared, the statements are not a guarantee that such future events will occur and are subject to risks, uncertainties, assumptions and other factors which could cause events or outcomes to differ materially from those expressed or implied by such forward-looking statements.

Such factors and assumptions include, among others, the effects of general economic conditions, the price of gold, silver and copper, changing foreign exchange rates and actions by government authorities, uncertainties associated with legal proceedings and negotiations and misjudgments in the course of preparing forward-looking information. In addition, there are known and unknown risk factors which could cause our actual results, performance or achievements to differ materially from any future results, performance or achievements expressed or implied by the forward-looking statements. Known risk factors include risks associated with project development; the need for additional financing; operational risks associated with mining and mineral processing; fluctuations in metal prices; title matters; uncertainties and risks related to carrying on business in foreign countries; environmental liability claims and insurance; reliance on key personnel; the potential for conflicts of interest among certain of our officers, directors or promoters of with certain other projects; the absence of dividends; currency fluctuations; competition; dilution; the volatility of the our common share price and volume; tax consequences to U.S. investors; and other risks and uncertainties. Although we have attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. We are under no obligation to update or alter any forward-looking statements except as required under applicable securities laws.

Cautionary Note to United States Investors - The information contained herein and incorporated by reference herein has been prepared in accordance with the requirements of Canadian securities laws, which differ from the requirements of United States securities laws. In particular, the term "resource" does not equate to the term "reserve". The Securities Exchange Commission's (the "SEC") disclosure standards normally do not permit the inclusion of information concerning "measured mineral resources", "indicated mineral resources" or "inferred mineral resources" or other descriptions of the amount of mineralization in mineral deposits that do not constitute "reserves" by SEC standards, unless such information is required to be disclosed by the law of the Company's jurisdiction of incorporation or of a jurisdiction in which its securities are traded. U.S. investors should also understand that "inferred mineral resources" have a great amount of uncertainty as to their existence and great uncertainty as to their economic and legal feasibility. Disclosure of "contained ounces" is permitted disclosure under Canadian regulations; however, the SEC normally only permits issuers to report mineralization that does not constitute "reserves" by SEC standards as in place tonnage and grade without reference to unit measures.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
