

Abcourt Signs a Custom Milling Agreement With Aurbec Mines Inc., a Wholly-Owned Subsidiary of Maudore Minerals Ltd

16.08.2013 | [Marketwired](#)

MONT-ST-HILAIRE, QUEBEC--(Marketwired - Aug 16, 2013) - **Mr. Renaud Hinse, President and C.E.O. of**

[Abcourt Mines Inc.](#) (TSX VENTURE:ABI)(BERLIN:AML)(FRANKFURT:AML) (the "**Company**"), is pleased to announce that an Agreement was signed yesterday with Aurbec Mines Inc, a wholly-owned subsidiary of [Maudore Minerals Ltd.](#), to treat the Elder mineralized material at the Sleeping Giant mill owned by Aurbec. The Elder mine is located in Rouyn-Noranda, Quebec, and the mineralized material will be transported by trucks to the mill located about 80 km north of Amos, Quebec. The Agreement is good for a period of six months and it may be extended if both Parties agree.

Aurbec has requested all relevant environmental permits and authorizations to store and process the Elder mineralized material at its mill. A Certificate of Authorization is expected on or about September 15 next. The shipment of mineralized material will start as soon as this permit is obtained. We expect to ship about 39,000 tonnes of mineralized material before the end of 2013.

About Abcourt Mines Inc.

[Abcourt Mines Inc.](#) is an exploration and development company with strategically located properties in northwestern Quebec, Canada. The Elder Mine with 43-101 gold resources, the Abcourt-Barvue Project with 43-101 silver-zinc ore reserves and resources and the Aldermac property with historical copper-zinc resources are all former producers. Abcourt is now focused on bringing the Elder and Abcourt-Barvue projects back into production with Elder as the first priority. At the same time the company is working on other projects (Aldermac, Vezza, Jonpol and Vendome) to increase its mineral resources inventory. A 43-101 resource calculation was completed in July, 2012, for the Elder Mine. A positive PEA report was prepared on Elder mine in the Fall of 2012 by Roche Limited, Consulting Group. A positive 43-101 feasibility study was completed by GENIVAR in 2007 on the Abcourt-Barvue Project. In addition, mill equipment was purchased. FORWARD-LOOKING STATEMENTS: *Certain of the information contained in this news release may contain "forward-looking information". Forward-looking information and statements may include, among others, statements regarding the future plans, costs, objectives or performance of [Abcourt Mines Inc.](#) (the "**Company**"), or the assumptions underlying any of the foregoing. In this news release, words such as "may", "would", "could", "will", "likely", "believe", "expect", "anticipate", "intend", "plan", "estimate" and similar words and the negative form thereof are used to identify forward-looking statements. Forward-looking statements should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether, or the times at or by which, such future performance will be achieved. Forward-looking statements and information are based on information available at the time and/or management's good-faith belief with respect to future events and are subject to known or unknown risks, uncertainties, assumptions and other unpredictable factors, many of which are beyond the Company's control. These risks, uncertainties and assumptions include, but are not limited to, those described under "Risk Factors" in the Company's amended and restated annual information form dated November 26, 2010 and could cause actual events or results to differ materially from those projected in any forward-looking statements. The Company does not intend, nor does the Company undertake any obligation, to update or revise any forward-looking information or statements contained in this news release to reflect subsequent information, events or circumstances or otherwise, except if required by applicable laws.*
