International Northair Executes Additional Surface Access Agreement at the La Cigarra Silver Project, Mexico

28.10.2013 | Marketwired

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Oct 28, 2013) - **International Northair Mines Ltd. (TSX VENTURE:INM) ("Northair" or the "Company")** is pleased to announce that its wholly-owned subsidiary, Grupo Northair de Mexico, S.A. de C.V. ("Grupo Northair"), has agreed to terms on an important access agreement (the "Agreement") at its La Cigarra silver project (the "Property"), located in Chihuahua State, Mexico.

This latest Agreement provides the rights for Northair to conduct on-going exploration programs on a highly prospective area within a southern portion of the Property. This augments the land and surface agreements previously announced by the Company on September 11, 2013 (see INM PR#13-15). Furthermore, the Agreement provides the Company with road access that will significantly decrease the travel time between the La Cigarra silver project and the city of Parral.

"This access agreement is another important milestone in the development of our La Cigarra silver project," said Fred Hewett, President & CEO of Northair. "Since the onset of exploration it has been very important to Northair to have the support of the local community and stakeholders. We look forward to maintaining these co-operative relationships as we move the Property forward."

Exploration Update:

Field crews are continuing with programs designed to expand the known open 6 kilometre mineralized trend in anticipation of drill programs along strike from the published NI 43-101 Resource. Current work includes geological mapping and sampling; with soil and silt geochemical surveys and water sampling. Northair will provide updates as results become available.

About International Northair Mines Ltd.

Northair is a mineral exploration company engaged in the acquisition and development of gold and silver properties in Mexico. International Northair Mines Ltd..is focused on advancing its La Cigarra silver project located in the state of Chihuahua, which currently hosts a **NI 43-101 Resource estimate of 50.4 million ounces of silver in the Measured & Indicated categories grading 76 g/t silver and 3.5 million ounces of silver in the Inferred category grading 61 g/t silver constrained by a Whittle pit shell at an economic cutoff grade of 30 g/t silver (assuming metallurgical recoveries of 84% silver)**. The La Cigarra silver deposit also contains appreciable amounts of lead, zinc and gold.

ON BEHALF OF THE BOARD, INTERNATIONAL NORTHAIR MINES LTD.

Fred G. Hewett, P.Eng., President & CEO
