

Nevada Clean Magnesium Welcomes Robert Brown Back to Board of Directors

07.11.2013 | [The Newswire](#)

VANCOUVER, BRITISH COLUMBIA - (AccessWire) - November 7, 2013 - [Nevada Clean Magnesium Inc.](#) (TSXV: NVM; Frankfurt-M1V; OTC Pink Sheets: MLYFF) (the "Company") today announced the reappointment of Robert "Bob" Brown to the Board of Directors, for which he originally served as an independent member from 2009 through 2011.

Commenting on Brown's reappointment, Ed Lee, Chairman and CEO of Nevada Clean, stated, "We are delighted to welcome Bob back to our Board of Directors and look forward to benefiting from his invaluable guidance, expertise and support as our new partnership with ScanMag AS continues to evolve and our Tami-Mosi project moves forward."

Broadly recognized as one of the world's leading authorities on Magnesium Metal production, Brown brings Nevada Clean over five decades of industry experience in both ferrous and non-ferrous materials, including 20 years in the technical management areas of light metal foundries and reduction plants. During his long and highly accomplished career, Bob has consulted for many major international magnesium companies, assisting with evaluation, planning, design, marketing and troubleshooting of new operations.

Most recently, Bob served as a lead consultant to Takamul Investments, owned largely by Oman Oil, advising on the creation and development of a magnesium metal production industry in the Sultanate of Oman. He has also lent his engineering and metallurgical expertise to Dow, American Magnesium, UBE Industries, Dead Sea Magnesium, Chinese Magnesium Corporation, Advanced Magnesium Alloys Corporation, Thixomat, Globex, Magnesium Elektron North America (Spectrulite), Quay Magnesium Limited, Russian National Aluminum-Magnesium Institute, Anaconda Nickel, China Steel Corporation and Xstrata, among many, many others. In addition, Bob has served as a technical advisor on numerous studies for Fluor Daniel involving magnesium development projects around the world. Earlier in his career, he was Director of Magnesium Operations of a 10,000 tpy silicothermic magnesium reduction plant in the southeastern U.S., responsible for over 200 employees and day-to-day operations of the quarry, production plant and sludge reclamation facility that he helped to design and construct.

Bob has been the Publisher of Magnesium Monthly Review since 1971 and is a contributing editor and columnist for both Light Metal Age and Australian Journal of Mining, with over 25 publications. He has served as Executive Secretary for the International Magnesium Association (IMA) and has participated on numerous industry panels worldwide.

About Nevada Clean Magnesium, Inc.

Nevada Clean Magnesium is focused on becoming a major U.S. producer and distributor of primary, high grade, low cost magnesium extracted from its 100% owned Tami-Mosi property located in North Central Nevada. Based on the Company's NI 43-101 Preliminary Economic Assessment Report published in late 2011, the Tami-Mosi Project has an inferred resource of 412 million tonnes with an average grade of 12.3% Mg for a contained metal content of 111 billion pounds of magnesium using a 12% cut-off grade contained within a high purity dolomite block.
