Additional Information about Plan of Arrangement Voting

Approval of the plan of arrangement transaction (the "Arrangement") with [Hochschild Mining plc](#) ("Hochschild") required: (a) a majority of not less than two-thirds of the votes cast by the IMZ Securityholders voting together as a single class, and (b) a simple majority of the votes cast by IMZ Shareholders after excluding the votes of certain shareholders as required by Multilateral Instrument 61-101 (Protection of Minority Security Holders in Special Transactions). In this regard, 3.76 million shares held by Hochschild and 1.33 million shares held by IMZ CEO, Stephen Kay, were excluded from voting.

The results of the Securityholders voting as a single class are that 47,395,470 shares and options (99.98%) were voted for the motion to approve the Arrangement and 7,271 shares and options (0.02%) were voted against the motion to approve the Arrangement. The motion was therefore adopted by the Securityholders of

the Company. The results of the Shareholders (excluding the shares held by Hochschild Mining and Stephen Kay) are that 39,533,308 shares (99.98%) were voted for the motion to approve the Arrangement and 7,271 shares (0.02%) were voted against the motion to approve the Arrangement. The motion was therefore adopted by the minority Shareholders of the Company.

Hochschild will hold an Extraordinary General Meeting of its shareholders on November 29, 2013 to approve the Arrangement. Hochschild's majority shareholder, owning approximately 54% of the outstanding shares has entered into a voting agreement to vote such shares in favor of the Arrangement.

Completion of the Arrangement is subject to approval by the Supreme Court of Yukon at a hearing scheduled to be held on December 2, 2013 and also to conditional approval of the listing on the Toronto Stock Exchange of the shares of [Chaparral Gold Corp.](#) (the company to be spun-off as a result of the Arrangement and to be owned by the current IMZ shareholders), as well as certain customary conditions.
