

Lions Gate Metals Inc. Announces Appointment of New Director

04.12.2013 | [Marketwired](#)

VANCOUVER, Dec 4, 2013 - [Lions Gate Metals Inc.](#) (TSX VENTURE:LGM) ("Lions Gate" or the "Company") is pleased to announce that it has appointed Dr. Peter Born, P. Geol., to the Board of the Company as an independent director.

Dr. Peter Born is a P. Geol. with the Association of Professional Geoscientists of Ontario and a Fellow of the Geological Association of Canada. He brings more than 30 years' experience exploring and evaluating mining properties for senior and junior Canadian and American resource companies. He holds a Ph.D. in Earth Sciences with expertise in Precambrian sedimentary geology, basin analysis, sedimentology, stratigraphy and sedimentary ore deposits.

Dr. Born has worked extensively in Archean greenstone terrains throughout Canada and modeled/explored gold systems/alteration halos in both iron formation gold deposits as well as vein type deposits. As a Resource Geologist, Peter dealt extensively with QA/QC issues with respect to data handling, data integrity, resource auditing, error assessment and uncertainty in generating both ore reserves and geological models. Dr. Born currently serves as a director for several resource companies listed on the TSX Venture Exchange.

"Lions Gate is very happy to have Dr. Born join the team. As the junior resource market is still volatile and underfunded, we are being patient and sourcing a number of opportunities and Dr. Born's background will assist us in this endeavor. With our restructuring complete Lions Gate now has approximately 7,036,956 shares on an issued and outstanding basis. With a closing price today of \$0.05 per share, our market cap is a mere \$351,847. With the 100% owned Poplar Copper project back in our portfolio we remain very optimistic about the future of Lions Gate Metals and the Canadian copper resource market," stated Mr. Arni Johansson.

Sincerely on behalf of the Board of Directors,

Arni Johansson, CEO & Chair
Lions Gate Metals Inc.
