"These results mark the first full year of commercial production at our Ming Copper-Gold Mine, with continued increases in production and revenues compared to the same period in fiscal 2013 and quarter on quarter.

"Rambler continues to grow as a low cost producer by pursuing growth opportunities in the investments of The Little Deer Copper Project, Maritime Resources and Marathon Gold. Additional cash flow from the operation is also being used to pay off the outstanding balance on credit facility with a target to have this extinguished by early next year.

"Our objective continues to be to maximise shareholder value and increase exposure and liquidity on both the London's AIM and Canada's TSX-V markets."
