About Redhawk

Redhawk is a Canadian-based resource exploration and development company with primary focus on the accelerated development of its advanced stage Copper Creek copper-molybdenum project in San Manuel, Arizona. The 100% owned Copper Creek property consists of approximately thirty-three square miles of contiguous patented and unpatented mining claims and state prospecting permits, located about 70 miles northeast of Tucson, Arizona and about 15 miles east of San Manuel. The property is in the prolific southwest US porphyry copper belt at the projected intersection of a major northwest belt of porphyry copper deposits or mines (Ray, Miami/Globe, Superior/Resolution, Johnson Camp) and a major east-northeast belt of porphyry deposits (San Manuel/Kalamazoo, Silver Bell, Lakeshore, Safford, Morenci). The property is within sight of the former BHP Kalamazoo/San Manuel copper smelter and mine and within 30 miles of an existing operating copper mill and smelter. The area is a mining friendly and politically secure location with excellent and readily accessible infrastructure including power, rail, water, roads and qualified consultants.
