About Sona Resources Corp.

Sona is a junior gold resource company based in Vancouver, with a focus on bringing its Blackdome-Elizabeth Gold Project into full commercial production. Since its inception in 1990, Sona has engaged in a wide range of mineral exploration activities in Canada, Mexico and the United States, as well as small-scale gold production.

Sona owns a 100 percent interest in the former Blackdome Gold Mine in south-central British Columbia, 250 kilometres north of Vancouver, and the Elizabeth Gold Deposit Property, 30 kilometres south of Blackdome. At Blackdome, the mineral resources are estimated to be 144,500 tonnes, grading 11.29g Au/t and containing 52,500 oz. gold, indicated; and 90,600 tonnes, grading 8.79g Au/t and containing 25,900 oz. gold, inferred (Sona news release dated May 4, 2010). At Elizabeth, Sona has outlined an inferred gold resource of 523,000 tonnes, grading 12.26g Au/t and containing 206,100 oz. gold (Sona news release dated June 8, 2009).

Mineral resources that are not mineral reserves do not have demonstrated economic viability.

Sona aims to bring the fully permitted Blackdome mill back into production at an initial rate of 200 tonnes per day, with feed from the formerly producing Blackdome Gold Mine.

On July 15, 2013, Sona announced the acquisition of the highly prospective Mineral Creek Gold-Silver Project near Port Alberni, British Columbia.

Sona also holds a 100 percent interest in the Montgolfier Project in Quebec, 40 kilometres east of the multimillion-ounce Casa Berardi Mine gold deposit.

On behalf of the Board,

Nick Ferris
Executive Chairman
