

# Goldstar Minerals Inc. Issues Corporate Update

28.01.2014 | [Marketwired](#)

- **Drill program planned for Julien property in Quebec**

- **Due diligence completed for New Brunswick tungsten property acquisition**

MONTREAL, Jan. 28, 2014 - [Goldstar Minerals Inc.](#) ("Goldstar" or "the Company") (TSX VENTURE:GDM) issues the following corporate update pertaining to the company.

## **Drill Program on Québec property**

The Company has completed 63 kilometres of detailed Induced Polarization (IP) ground survey from initial airborne anomalies. As a result, it has identified several targets and will proceed with a diamond drill program planned at the beginning of February 2014. The Julien property, which is located 100 km East of Mattagami in the area north of the 49th parallel and accessible all year round, covers nearly 165 claims over an area of approximately 91 km<sup>2</sup>. The drill program of approximately 1,500 meters will focus on a specific area where several never-tested geophysical conductors are present.

## **Due diligence completed for New Brunswick property acquisition**

As announced on December 24th 2013, the Company entered into a Mineral Option and Sale Agreement with Charles Morrissy with respect to a 46 claim tungsten property covering an area of 9.5 km<sup>2</sup> in New Brunswick. The property which is approximately 40 km west of Fredericton and adjacent to the north to the past producing Lake George antimony mine, is close to existing infrastructures and has excellent year-round access. The titles to the property have now been verified and the Company is currently seeking regulatory approvals and expects to close the transaction by mid-February.

## **Qualified Person**

The scientific and technical information in this news release has been reviewed and approved by Benoit Moreau, Goldstar Minerals President and CEO, a professional engineer and a qualified person as defined by National Instrument 43-101.
