Perth, Australia (ABN Newswire) - Bauxite Resources Ltd. (ASX:BAU) continues to focus primarily on the exploration and evaluation of bauxite prospectivity in BRL's extensive tenement holding in Western Australia's Darling Range, the largest bauxite and alumina producing region in the world.

Currently the Company and its joint Venture Partners hold ~14,266km2 (7,831km2 granted). Through a process of low cost resource targeting activities the Company is actively exploring its substantial tenement holdings and rationalising these tenements to maintain the most prospective areas for bauxite mineralisation.

- Commenced environmental study on BRL's 100% Fortuna Deposit and undertaken conceptual mine planning activities as part of the Company's strategy of targeting export DSO shipments out of the Fortuna deposit.

-- 9m @ 32.2% avail Al_2O_3 (43.0% total), 2.1% SiO_2 (reactive) from 2.5m
