

Durango Resources Inc. Granted Approval On Graphite Prospects In Ontario

08.01.2014 | [ACCESS Newswire](#)

January 8, 2014 - [Durango Resources Inc.](#) (the "Company") is pleased to announce it has been granted TSX Venture Exchange approval for its 100% interest in mineral claims located in northern Ontario adjacent to the

[XMET Inc.](#), (TSX.V-XME) ("XME"), [Zenyatta Ventures Ltd.](#), (TSX.V-ZEN) ("ZEN") and [GTA Resources and Mining Inc.](#) (TSX.V-GTA) ("GTA") graphite properties. The newly acquired claims in the Porcupine district of Ontario, total approximately three hundred hectares.

XME's President, Mr. Alexander Stewart announced on January 6, 2014 via [www.sedar.com](#) that "As a result of our recent success in discovering conductive anomalies, and in particular one such anomaly that bares striking geophysical similarities to that of Zenyatta's Albany project, we have aggressively expanded our land position based on our geological interpretation of areas co-incident with magnetic lows where we see opportunities to discover additional hydrothermal graphite targets."

Durango's chief executive officer, Marcy Kiesman stated, "We are confident that the combination of being located in the center of the hydrothermal graphite region as defined by work carried out by other landholders and our neighbors discovering significant magnetic and electromagnetic anomalies associated with graphitic zones, will produce positive outcomes for the Company and its shareholders."

About Durango

Durango is a natural resources company engaged in the acquisition and exploration of mining/exploration properties, mainly for gold and other precious metals. The Company has a 100% undivided interest in the McGillivray Property in British Columbia, the Sol Riche and Tresor Nord/Sud REE properties in Montviel Township in Quebec, the Trove and Decouverte gold properties in the Abitibi of Quebec, the Montpellier and St. Sixte graphite properties in the Grenville region of Quebec, and the Stubble gold property in Saskatchewan.
