About Canada Coal

Canada Coal is a publically listed company focused on coal exploration and development in Nunavut. Through its two wholly-owned subsidiaries, Canada Sovereign Coal Corp. and 5200 Nunavut Ltd., Canada Coal holds 86 active licenses comprising approximately 2,722,627 acres located on Ellesmere Island and Axel Hieberg Island in Nunavut (the "**Nunavut Coal Property**"). Multiple high quality thermal coal deposits were discovered on the Company's arctic coal license areas located in Nunavut through its 2012 exploration program. Well over 100 coal seams on the Company's Fosheim Peninsula project area were assessed, resulting in the identification of extensive zones of low-sulphur, low-ash, subbituminous, thermal coal. The Fosheim Peninsula is the company's primary exploration target and one of six coal license areas currently owned by the Company.
