NEW YORK, NY -- (Marketwired - Nov 13, 2013) - [Britannia Mining, Inc.](#) (OTC Pink: BMIN) (BMIN or the Company), the successor of a merger between UK based mining development company Britannia Mining Plc and U.S. based [Micron Enviro Systems](#) (Former Symbol: MSVS), will be featured on 'The Stock Radio' today, Wednesday, November 13, 2013.

Stakeholders and other interested persons are encouraged to log onto www.thestockradio.com to listen to the company's interview.

Communication with the company in response to the interview is accessible through Britannia's facebook (<http://on.fb.me/HTWrqB>), LinkedIn (<http://linkd.in/1buO9Qt>), and/or Twitter (<https://twitter.com/BritMining>), or please visit www.BritanniaMining.com for additional information.

About Britannia Mining

[Britannia Mining](#) is an explorer and developer of mining projects targeting 100 Million Tons (MT) iron at the Nthale project. The company is developing a high grade iron ore project in Malawi and holds an Exclusive Prospecting License (EPL) for iron ore over 650 sq km at Nthale, Blantyre. From magnetic imaging studies that have been completed over 20 sq km, the company has located a number of ore bodies that indicate this area alone could yield upwards of 40 million tons iron ore. The company intends to mobilize a drilling program at Nthale Hill where upon completion and approval by a competent person, the data will provide a resource definition at this area.

Britannia Mining has also inherited the legacy projects (properties, claims, etc) of the former Micron Enviro Systems and now has added to its diversified portfolio a number of gold claims, leases and permits in the Yukon.
