

# Gold Fields commences 2013 exploration program at the Woodjam Copper-Gold Project

18.04.2013 | [The Newswire](#)

Vancouver, April 18, 2013 - [Consolidated Woodjam Copper Corp.](#) ("Woodjam Copper") (TSX-V:WCC.V - News) is pleased to report that Gold Fields Horsefly Exploration Corporation ("Gold Fields"), a subsidiary of [Gold Fields Limited](#) (JSE, NYSE, NASDAQ, Dubai: GFI), has started the 2013 field program at the Woodjam Copper-Gold Project located in the Cariboo region of British Columbia, east of the city of Williams Lake.

In 2012 Gold Fields vested a 51% interest in both the Woodjam North and South properties and gave notice to Woodjam Copper of its decision to exercise a right to earn a further 19% interest in both these properties. To earn this additional interest Gold Fields will be required to spend \$12 million and US\$8 million over the next four years on the Woodjam North and Woodjam South properties respectively. These spending requirements will be reduced by the 2012 expenditures which have not yet been accounted for. In addition, Gold Fields is required to complete a comprehensive feasibility study on the Woodjam South property. Woodjam Copper will retain a 30% interest in both Woodjam North and Woodjam South.

Work completed in 2012 on the Woodjam South and Woodjam North properties included 114 diamond drill holes totaling 36,623 metres. Gold Fields continues to compile the results of this and previous work to determine how best to move forward and has indicated that this review will be available within the next two months.

The current program will consist of approximately 4,000 metres of diamond drilling within the Woodjam South project area and is expected to take approximately two months to complete.
