About Thundermin

Thundermin is a Canadian-based mineral exploration company focused on the exploration for and the discovery of economically viable base metal and gold deposits in Canada. Thundermin has an interest in, or the right to earn an interest in, 12 base metal and gold properties in Canada. The most significant of these is the Little Deer copper property in the Springdale area of Newfoundland that hosts the Little Deer and Whalesback copper deposits. Thundermin and 50% joint venture partner [Rambler Metals and Mining Canada Limited](#) have outlined Indicated Resources of 1,911,000 tonnes grading 2.37% copper and Inferred Resources of 3,748,000 tonnes grading 2.13% copper at Little Deer and Indicated Resources of 797,000 tonnes grading 1.67% copper and Inferred Resources of 443,000 tonnes grading 1.57% copper at Whalesback. A 3,800 m diamond drilling program is currently on-going on the Little Deer copper deposit.

Thundermin owns a 100% interest in the Lebel Township gold property, which is located on the Kirkland Lake Main Break in the prolific Kirkland Lake gold camp. Thundermin has the right to earn a 100% interest in eight exploration licenses covering a large portion of the Stirling volcanogenic massive zinc-lead-copper-silver-gold sulphide belt located on Cape Breton Island, Nova Scotia. An initial diamond drill program undertaken on the property in 2012 was successful in intersecting copper mineralization in porphyritic volcanic rocks similar to those known to host massive sulphide deposits elsewhere. Thundermin has royalty interests in seven base metal and gold properties located in British Columbia and Quebec, the most significant being a 2.5% net smelter return royalty in the Pelletier Lake gold deposit which is under option to [QMX Gold Corp.](#) The Pelletier Lake property is currently in arbitration with Thundermin aiming to regain full ownership of the property. Thundermin also has various shareholdings in twelve other junior resource companies exploring for base metal, gold, chrome, and diamond deposits in Canada.
