

Standard Tolling Announces New Advisory Board Member

07.04.2014 | [FSCwire](#)

White Rock, British Columbia CANADA, April 07, 2014 /FSC/ - [Standard Tolling Corp.](#) (TSX-V: TON, Frankfurt: GA0, "Standard Tolling" or the "Company") is pleased to announce that Mr. Alex J. Davidson has joined the Advisory Board of the Company.

Mr. Len Clough, CEO of Standard Tolling, commented, "Alex is best associated with large scale mining and his endorsement of the toll processing sector should be noted. He is not only an expert in Peru but has great experience throughout Latin America. Standard Tolling has worked hard to position itself as the credible candidate to play a leading role in the sector and I think this appointment takes us a long way there."

Mr. Davidson also commented, "Investors are aware of the challenges associated with large scale mining today, namely cost certainty, regulatory and time to production. The toll processing business model essentially bypasses these issues and provides immediate benefit to all stakeholders including government, investors, and the small miners that sell their ore. Standard Tolling has been presented with several opportunities and have built a management team with experience in building toll processing businesses of significance."

Alex J. Davidson

Mr. Davidson was [Barrick Gold Corp.](#)'s ("Barrick") Executive Vice President, Exploration and Corporate Development with responsibility for international exploration programs and corporate development activities. Mr. Davidson joined Barrick in October 1993 as Vice President, Exploration with responsibility for the company's expanding exploration program. He initiated Barrick's expansion out of North America and into Latin America and beyond. Prior to joining Barrick, Mr. Davidson was Vice President, Exploration for Metal Mining Corporation. Mr. Davidson has over 25 years of experience in designing, implementing and managing gold and base metal exploration and acquisition programs throughout the world. In April 2005, Mr. Davidson was presented the 2005 A.O. Dufresne Award by the Canadian Institute of Mining, Metallurgy and Petroleum to recognize exceptional achievement and distinguished contributions to mining exploration in Canada. In 2003, Mr. Davidson was named the Prospector of the Year by the Prospectors and Developers Association of Canada in recognition for his team's discovery of the Lagunas Norte Project in the Alto Chicama District, Peru. He received his B.Sc. and his M.Sc. in Economic Geology from McGill University.

About Standard Tolling Corp.

Standard Tolling has assembled a well respected operating team with expertise in operating multiple toll processing plants that purchase ore from small miners. The Company is looking to establish its first toll processing facility in Peru upon the completion of a comprehensive study due in May 2014. Under the progressive new formalization mandate, the Peruvian government has enacted legislation that has fuelled a strong demand for additional compliant ore processing plants. The Company is considering several additional tolling opportunities throughout Latin America, each with an initial minimum production rate of at least 20,000 ounces of gold or gold equivalent in cases where other ore types are processed.

ON BEHALF OF THE BOARD

"Len Clough"

Mr. Len Clough, Chairman, President, CEO and Director
