

# Graphite One Appoints Scott Koyich to its Advisory Board

20.05.2014 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA--(Marketwired - May 20, 2014) - [Graphite One Resources Inc. \(TSX VENTURE:GPH\)\(OTCQX:GPHOF\)](#) ("Graphite One" or the "Company") is pleased to announce the appointment of Scott Koyich to the Company's advisory board. Scott brings with him a wealth of experience in investor relations services and capital markets.

"We are very pleased to have Scott join our team and look forward to his contributions to our business strategy moving forward. Scott's experience in capital market and knowledge of the graphite industry will be a tremendous asset as we continue to advance the development of the Graphite Creek project," offered Anthony Huston, President and CEO for the Company.

"I continue to be impressed by the Graphite Creek Deposit, in particular the size, grade, and proximity to surface. There is no doubt in my mind that High Purity Graphite demand worldwide will continue to grow, driven by the Clean-Tech market. I look forward to contributing to the further development of Graphite One and to the strategic direction of the Company," stated Scott Koyich, Advisor to the Company.

## About Scott Koyich

Scott Koyich is President and founder of Brisco Capital Partners Corp., a full service Investor Relations consultancy based in Calgary, Canada. Brisco represents public companies from a multitude of sectors, therefore diversifying risk to their audience, the broader investment community. Brisco has represented approximately 12 monetized equities over its 15 year existence represented by 3 sectors, oil and gas, mining and technology.

## About Graphite Creek

The Graphite Creek Property comprises 129 claims totaling 6,799 hectares on the Seward Peninsula of Alaska, 65 kilometers north (40 miles) of a deep sea port at Nome.

Mineralization at the Graphite Creek Property is characterized by coarse crystalline (large flake) graphite (greater than 80 mesh) within graphite-bearing schist(s). Please refer to the January 20, 2014 press release where Graphite One reports a NI 43-101 inferred resource of 284.71 million tonnes at 4.5% graphite (including 37.68 million tonnes at 9.2% graphite and 8.63 million tonnes at 12.8% graphite).

## About Graphite One Resources Inc.

[Graphite One Resources Inc.](#) (TSX VENTURE:GPH)(OTCQX:GPHOF) is exploring with the intent to develop the Graphite Creek Project, USA's only advanced staged large-scale, large flake graphite deposit.

*Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.*

*This release includes certain statements that may be deemed to be forward-looking statements. All statements in this release, other than statements of historical facts that address access to capital, regulatory approvals, exploration drilling, exploitation activities and events or developments that the Company expects, are forward-looking statements. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include market prices, exploitation and exploration successes, continuity of mineralization, uncertainties related to the ability to obtain necessary permits, licenses and title and delays due to third party opposition, changes in government policies regarding mining and natural resource exploration and exploitation, and continued availability of capital and financing, and general economic, market or business conditions. Readers are cautioned not to place undue reliance on this forward-looking information, which is given as of the date it is expressed in this press release, and the Company undertakes no obligation to update publicly or revise any forward-looking information, except as required by applicable securities laws. For more information on the Company, investors should review the Company's continuous disclosure filings that are available at [www.sedar.com](http://www.sedar.com).*

*The mineral resource estimates reported in this press release were prepared in accordance with Canadian National Instrument 43-101 Standards of Disclosure for Mineral Projects ("**NI 43-101**"), as required by Canadian securities regulatory authorities. For United States reporting purposes, the United States Securities and Exchange Commission ("**SEC**") applies different standards in the classification of mineralization. In particular, while the terms "measured," "indicated" and "inferred" mineral resources are required pursuant to NI 43-101, the SEC does not recognize such terms. Canadian standards differ significantly from the requirements of the SEC. Investors are cautioned not to assume that any part or all of the mineral deposits in these categories constitute or will ever be converted into reserves. In addition, "inferred" mineral resources have a great amount of uncertainty as to their existence and great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to a higher category. Under Canadian securities laws, issuers must not make any disclosure of results of an economic analysis that includes inferred mineral resources, except in rare cases.*
