## ABOUT VENDOME:

Vendome is a mining exploration company located in Toronto, Canada. Our primary focus is to advance our flagship properties, San Javier, La Diana and San Miguel, which are located in the heart of the Sierra Madre del Sur precious metals belt, in the State of Guerrero, Mexico. The three properties encompass an area of over 17,000 hectares and have reported high grade silver samples of up to 15,000 g/t.

Vendome also owns property in the center of the Borden Lake Gold District in Ontario, Canada. Recently, Probe Mines Inc. (TSXV:PRB) made a major gold discovery in the Borden Lake area in the Kapuskasing Structural Zone ("KSZ"), which is located 60 kilometers to the southwest of our wholly-owned property. Our property is located in the KSZ, shares the same geological formation with Probe and is on strike with Probe's multi-million ounce gold deposit. Borden Lake has become a new focus area for our team.

[Vendome Resources Corp.](#) is managed by an experienced team of mining professionals with extensive operating and financial experience.
