About Oban Mining Corporation

The Company is a mineral exploration company focused on the acquisition, exploration, and development of base metal resource properties in the Americas. The Company is actively engaged in the identification, acquisition, evaluation and exploration of mineral properties, and holds options to acquire a 100% interest in four mining concessions covering a total surface area of 1,200 hectares comprising the Marcahui project, twenty-four mining concessions covering a total surface area of 16,700 hectares comprising the Antamayo project, and options to acquire an interest on the Arcopunco, all of which are in Peru. The Company is exploring these properties for precious metal deposits including gold, silver and copper. The Marcahui project and the Antamayo project are the Company's primary assets. The Company also holds various interests in properties located in Peru including the Bermejo project, Cevichito project, Magdalena property and other grass root projects (approx. 50,000 ha).
