

Copper North Completes Acquisition of Thor Property

11.07.2014 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Jul 11, 2014) - [Copper North Mining Corp.](#) ("Copper North" or the "Company") (TSX VENTURE:COL) is pleased to announce that the agreement to acquire a 100% interest in the Thor property from Electrum Resource Corporation ("Electrum"), previously announced on July 2, 2014, has been accepted by the TSX Venture Exchange ("TSXV").

Pursuant to the acquisition agreement, Copper North has made the initial payment of \$25,000 and issued 1,000,000 common shares of the Company to Electrum. The common shares issued are subject to a four month hold period. Copper North will maintain its 100% interest in the Thor property by making, over a six year period, additional cash payments totalling \$500,000 (for an aggregate of \$525,000), issuing four (4) million additional common shares (for an aggregate of 5 million common shares) and incurring exploration expenditures on the property totalling \$5 million. If the Company fails to make a scheduled payment of cash or common shares, title to the property will revert to Electrum. In addition, Electrum will receive a 2% Net Smelter Return which is capped at \$5 million. The Company agrees to pay an advanced royalty payment of \$1 million if commercial production is not attained in respect of the Thor property before the seventh, eighth, ninth, tenth and eleventh anniversaries of the acquisition agreement.

The Thor property consists of 8,700 hectares of mineral claims, is road accessible and is located approximately 20 kilometres south of the Kemess South mine-mill complex in North Central British Columbia. The property hosts several attractive large geophysical targets associated with intrusive complexes similar to those hosting the porphyry copper-gold deposits of the Kemess District. Additional Induced Polarization surveying is planned for summer 2014 to complete coverage in the West and East blocks and better define targets for drill testing.

The technical information in this news release has been reviewed and approved by Dr. Harlan Meade, P. Geo. who is a "qualified person" as defined by National Instrument 43-101.

About Copper North

Copper North is a Canadian mineral exploration and development company. Copper North's assets include the Carmacks Copper Project located in the Yukon, the Thor Property in British Columbia, and the Redstone Property located in the Northwest Territories. Copper North trades on the TSX Venture Exchange under the symbol COL.

Cautionary and Forward-Looking Information Comments

This news release includes certain forward-looking information or forward-looking statements (collectively "Forward-Looking Information") for the purposes of applicable securities laws. Forward-Looking Information includes, but is not limited to, statements with respect to the acquisition agreement with Electrum and Copper North's obligations thereunder; the proposed exploration and development activities on the Thor property and their timing and potential mineralization; possible events, conditions or performance that are based on assumptions about future courses of action. In certain cases, Forward-Looking Information can be identified by the use of words and phrases such as "plans", "expects" or "does not expect", "scheduled", "estimates", "anticipates", "potential", "recommends" or variations of such words and phrases or statements

that certain actions, events or results "may", "could", "would" or "will be taken", "occur" or "be achieved". These statements address future events and conditions and, as such, involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements to differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from the Company's expectations include, among others, timeliness of regulatory approvals, the timing and success of future exploration and development activities, exploration and development risks, market prices, exploitation and exploration results, availability of capital and financing, general economic, market or business conditions, uninsured risks, regulatory changes, defects in title, availability of personnel, materials and equipment, unanticipated environmental impacts on operations and other exploration risks detailed herein and from time to time in the filings made by the Company with securities regulators. In making the forward-looking statements, the Company has applied several material assumptions including, but not limited to, the assumptions that the Company will be able to satisfy its obligations under the acquisition agreement, that the Company will obtain regulatory approvals on a timely basis, that the proposed exploration and development of Thor property will proceed as planned, the Company will be able to timely obtain permits and licences required for development of the property and conduct its operations, that market fundamentals will result in sustained metals and mineral prices, current exploration and other objectives can be achieved, that the Company's other corporate activities will proceed as expected, and any additional financing needed will be available on reasonable terms. Although the Company has attempted to identify important factors that could affect the Company and may cause actual actions, events or results to differ materially from those described herein, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that Forward-Looking Information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on Forward-Looking Information. The Company expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise except as otherwise required by applicable securities legislation.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
