

Bold Ventures Stakes Additional Claims And Begins Work At Lac Surprise

24.07.2014 | [Marketwired](#)

TORONTO, ONTARIO--(Marketwired - Jul 24, 2014) - [Bold Ventures Inc. \(TSX VENTURE:BOL\)](#) ("Bold" or the "Company") is pleased to report that application has been made for additional claims to be included within the Lac Surprise project. Technical review of available data and compilation work has led the exploration team to recommend staking an additional 46 claims that total approximately 2,589 hectares or 6,395 acres. With these additional claims, the project currently encompasses 379 claims that are comprised of approximately 21,144 hectares or 52,226 acres.

The Company is also pleased to report that the exploration plan has been established and two exploration crews are mobilizing to the property. A prospecting, sampling and mapping program will provide additional assessment of the target areas that are found on the property in order to establish and prioritize the various locations for diamond drill testing later this year. The Technical team participating in this program will include both Bold and [Northern Superior Resources Inc.](#) personnel.

The Lac Surprise property is located approximately 50 Km south of Chapais and within the historic Chibougamau - Chapais gold camp in west central Quebec. Bold can earn a 50% working interest in the property by spending an aggregate of \$2,000,000 on exploration of the property and issuing to Northern Superior a total of 350,000 common shares of Bold all over a three year period, 50,000 shares of which were issued upon signing the agreement. Bold is obligated to spend a minimum of \$500,000 on exploration of the property in the first year, at the end of which a further 50,000 common shares of Bold are issuable. The second year optional commitment is 100,000 common shares of Bold and \$500,000 in exploration work. The third year optional commitment calls for \$1,000,000 in exploration work on the property and the issuance of 150,000 common shares of Bold.

Bold also holds the option to earn an additional 10% in the project by delivering a positive feasibility study within five years from the date of execution of the formal option agreement. If Bold takes up all parts of the option it will have earned a 60% interest in the property.

Recently, renewed exploration activity in the area has yielded several new gold discoveries made by Toma Gold/Iamgold (at Monster Lake); Vanstar (at Nelligan) and Soquem (at MOP II). All three of these companies have ongoing, major, multimillion dollar drilling programs underway.
