"His extensive geological experience, coupled with his capital markets experience, bodes well for the future of the Company. Bob Sibthorpe and co-director Richard Kern worked together on Klondex's Fire Creek discovery in northeastern Nevada, and he is also credited with making the high grade gold discovery at Yaramoko for Roxgold Inc. He has done extensive geological due diligence on our Toiyabe project, and his acceptance of this position as President of the Company confirms the merits of the property. I will continue to serve as a director of the Company and look forward to working closely with Mr. Sibthorpe."

American Consolidated is dedicated to the principles of environmentally sound mining practices and believes that environmental stewardship and mining can co-exist.
