

Goldrush Announces Voting Results from Annual and Special Meeting

06.08.2014 | [The Newswire](#)

Vancouver, British Columbia / TNW-ACCESSWIRE / August 6, 2014 / [Goldrush Resources Ltd.](#) (TSX-V: GOD) ("Goldrush" or the "Company") is pleased to announce the results of the voting at its Annual and Special Meeting of Shareholders (the "Meeting") held on Wednesday, August 6, 2014. A total of 44,313,948 Goldrush common shares were voted, representing 26.48% of the total shares issued and outstanding on June 26, 2014, the record date for the Meeting.

Shareholders voted in favour of all items put forward at the Meeting for approval by the Board of Directors and management. All five individuals nominated for election to the Board of Directors - Allan Williams, Dr. Len Brownlie, Driffield Cameron, Ross McElroy and Robert (Bob) Young - were re-elected.

Shareholders also voted in favour of the reappointment of De Visser Gray LLP Chartered Accountants, as auditors of the Company for the ensuing year and authorized the directors to fix the auditors remuneration.

Most significantly, the Shareholders passed a special resolution to approve the sale of all of the shares of Goldrush's 100% owned Burkina Faso subsidiary, Goldrush Burkina S.A.R.L. ("Goldrush Burkina") to Nord Prognoz Ltd., a wholly-owned subsidiary of [Nord Gold N.V.](#) (LSE: NORD) ("Nordgold") pursuant to a Share Purchase Agreement dated June 11, 2014, as may be subsequently amended. Goldrush Burkina holds the Tikare and Kongoussi 1 mineral permits that comprise the Ronguen Project, which is located 10 kilometres northwest of Nordgold's Bissa gold mine and 100 kilometres north of Ouagadougou, the capital city of Burkina Faso.

Prior to the closing of the Transaction (defined below), all assets and liabilities of Goldrush Burkina, other than the Tikare and Kongoussi 1 permits (which host the Ronguen Project and which will continue to be held by Goldrush Burkina) will be transferred from Goldrush Burkina to Goldrush West Africa S.A.R.L. ("Goldrush West Africa"), a new wholly-owned subsidiary of the Company. Accordingly, on closing of the Transaction Goldrush, through Goldrush West Africa, will indirectly hold six mineral permits and one mineral permit application in Burkina Faso.

The consideration (the "Purchase Price") for the sale of Goldrush Burkina (the "Transaction") is:

- US\$4,250,000, of which US\$3,250,00 will be paid to Goldrush on Closing and the remainder will be held in escrow, to be released in two tranches on July 1, 2015 and December 31, 2017, subject to deductions for any liabilities of Goldrush Burkina that occurred prior to Closing;
- a 1% Net Smelter Returns Royalty on any production from the Ronguen Project at a gold price over US\$1,700 per ounce. The royalty may be repurchased at anytime for a cash consideration of US\$1,000,000; and
- an extinguishment of any back-in rights held by Nordgold (or its predecessor, [High River Gold Mines Ltd.](#)) on Goldrush's Salbo or Ouavousse permits.

Goldrush intends to use the proceeds from the sale of Goldrush Burkina to continue its precious metals exploration by advancing its land position in West Africa through the exploration of the mineral permits that it will hold on closing of the Transaction, for the acquisition of complimentary, geologically promising permits, and for corporate and general working capital purposes.

The Transaction is subject to customary closing conditions, including final regulatory approval. There can be no assurance that the Transaction will complete as contemplated or at all. The Transaction, including the Purchase Price, was negotiated on an arm's length basis. There is no Finder's Fee payable in relation to the Transaction.

Closing of the Transaction is anticipated to occur by no later than September 3, 2014.

Commented Len Brownlie, President and CEO of Goldrush: "We wish to thank the shareholders of Goldrush for their continuing support. With the funds to be received from the sale of the Ronguen Project, we intend to carefully consider all options to increase shareholder value while maintaining a rigorous approach to cash

management."

About Goldrush:

Goldrush is a Canadian mineral exploration company, focused on gold exploration in Burkina Faso, West Africa.

About Nordgold:

[Nord Gold N.V.](http://www.nordgold.com) (LSE: NORD) is an international pure-play emerging-markets gold producer established in 2007 and publicly traded on the London Stock Exchange. Nordgold has expanded rapidly through acquisitions and organic investment, achieving a rate of growth unmatched in the industry during that period. In 2013, Nordgold's gold production increased to 924,000 ounces from 717,000 ounces in 2012.

Nordgold operates nine mines in Russia, Kazakhstan, Burkina Faso and Guinea. Nordgold has two development projects, four advanced exploration projects and a diverse portfolio of early exploration projects and licenses in CIS, West Africa and French Guiana. Nordgold currently employs over 10,000 workers.

ON BEHALF OF THE BOARD OF DIRECTORS, Goldrush Resources Ltd.

FORWARD-LOOKING STATEMENTS: This news release contains certain "forward-looking statements" within the meaning of Section 21E of the United States Securities Exchange Act of 1934, as amended. Except for statements of historical fact relating to the company, certain information contained herein constitutes forward-looking statements. Forward-looking statements are frequently characterized by words such as "plan," "expect," "project," "intend," "believe," "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur, and include, without limitation, statements regarding the share purchase agreement with Nordgold, how it intends to use the proceeds from the sale of Goldrush Burkina, the Company's plans with respect to future acquisitions, exploration and development, future financings and the sale or joint venture of some of the Company's exploration permits. Forward-looking statements in this release including statements regarding the Transaction and the share purchase agreement with Nordgold are based on the opinions and estimates of management at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. These factors include uncertainties relating to risks that could cause delay or terminate the Transaction, including lack of regulatory approval, the inherent risks involved in the exploration and development of mineral properties, the uncertainties involved in interpreting drilling results and other geological data, fluctuating metal prices, the possibility of project cost overruns or unanticipated costs and expenses, uncertainties relating to the availability and costs of financing needed in the future and other factors. The Company undertakes no obligation to update forward-looking statements if circumstances or management's estimates or opinions should change. The reader is cautioned not to place undue reliance on forward-looking statements.
