

Klondex to Present at 2014 Denver Gold Forum and Precious Metals Summit

05.09.2014 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Sep 5, 2014) - **Klondex Mines Ltd.** (TSX:KDX)(OTCQX:KLNDF), Nevada gold producer, will be exhibiting and presenting at the both the upcoming 2014 Precious Metals Summit and the 2014 Denver Gold Forum respectively taking place September 10-12 in Beaver Creek, CO, and September 15-17 in Denver, CO. Both presentations by Klondex President and CEO, Paul Huet, will be webcast and available on the Klondex website following the events.

The Precious Metals Summit presentation will take place on Thursday September 11 at 9:30a MDT in Room 1. Live webcasting will be posted on the Precious Metals [website](#).

The Denver Gold Forum presentation will take place on Wednesday September 17 at 11:30a MDT. Live webcasting will be available on the Denver Gold Forum website, on the Klondex [profile page](#).

Mr. Huet will provide an update on the precious metals operations at both Fire Creek and Midas in Northern Nevada along with an overview of upcoming catalysts at Klondex.

About Klondex Mines Ltd. (www.klondexmines.com)

Klondex is focused on the exploration, development and production of its two high quality gold and silver projects in the mining-friendly jurisdiction of north central Nevada. The 1200 tpd milling facility is processing mineralized materials from the Midas Mine and the Fire Creek Project. Midas is fully-permitted. Fire Creek is located ~100 miles south of Midas and is operating an ongoing bulk sampling program that began in 2013. All major infrastructure is in place at Fire Creek.

Cautionary Note Regarding Technical Information and Forward-looking Information

A production decision at the Fire Creek Project has not been made by Klondex, as it is still in the bulk sampling phase. Although a production decision at the Fire Creek Project has not been made, the mineralized material extracted from the Fire Creek Project under the bulk sample permit is processed through the Midas mill.

A production decision at the Midas Mine was made by previous operators of the mine, prior to the completion of the acquisition of the Midas mine by Klondex and Klondex made a decision to continue production subsequent to the acquisition. This decision by Klondex to continue production and, to the knowledge of Klondex, the prior production decision were not based on a feasibility study of mineral reserves demonstrating economic and technical viability prepared in accordance with NI 43-101. Readers are cautioned that there is increased uncertainty and higher risk of economic and technical failure associated with such production decisions.

This news release contains certain information that may constitute forward-looking information under applicable Canadian securities legislation, including but not limited to information about current expectations on the timing, extent and success of exploration, development and metallurgical sampling activities, the timing and success of mining operations, the timing and completion of an updated mineral resource estimate in respect of the Midas Project, the Company's intention and ability to monetize mineralized material, the successful execution of the bulk sampling program at the Fire Creek Project, project development and related permitting. This forward-looking information entails various risks and uncertainties that are based on current expectations, and actual results may differ materially from those contained in such information. These uncertainties and risks include, but are not limited to, the strength of the global economy; the price of

gold; operational, funding and liquidity risks; the degree to which mineral resource estimates are reflective of actual mineral resources; the degree to which factors which would make a mineral deposit commercially viable are present; the risks and hazards associated with underground operations; and the ability of Klondex to fund its substantial capital requirements and operations. Risks and uncertainties about the Company's business are more fully discussed in the Company's disclosure materials filed with the securities regulatory authorities in Canada and available at www.sedar.com. Readers are urged to read these materials. Klondex assumes no obligation to update any forward-looking information or to update the reasons why actual results could differ from such information unless required by law.
