

Stans Energy Legal Update

25.09.2014 | [Business Wire](#)

[Stans Energy Corp.](#) (TSX-V: HRE, OTCQX: HREEF), ("Stans" or the "Company"), reports that the Economic Court of the Commonwealth of Independent States (the "Court") has issued an advisory opinion on Section 11 of the Convention for the Protection of Investors' Rights which questions the basis of one of the arguments under which Stans brought its arbitration case against Kyrgyzstan.

As previously reported by the Company, the ruling by the Court does not affect the decision of the International Arbitration Court of the Moscow Chamber of Commerce and Industry (the "Tribunal"), as it is an advisory opinion only and is not binding within the CIS or internationally.

It is the view of the Company's legal advisors that Stans' arbitration award is final and binding. The company's legal advisors continue to proceed with execution of the award, and will continue to counter all efforts of the Kyrgyz Government to challenge their legitimate obligations to the company in any venues.

Stans also wishes to report that its Annual General and Special meeting will be held today on September 25, 2014 at 1pm.

The location of the September 25, 2014 Stans Energy Annual General and Special Meeting, will be:

Toronto Board of Trade:
September 25, 2014
Start Time – 1pm
77 Adelaide St. West
First Canadian Place
Toronto, Ontario
M5X 1C1

Management will provide a summary presentation regarding corporate initiatives undertaken since 2013.

A copy of this presentation is available at:

About Stans Energy

[Stans Energy Corp.](#) is a resource development company focused on advancing Heavy Rare Earth (HRE) properties in areas of Central Asia and Russia. In December 2009, Stans acquired a 20-year mining license for the past-producing Kutessay II rare earth mine from the Kyrgyz Republic. On May 26, 2011 Stans completed the purchase of the Kashka Rare Earth Processing Plant (KRP) the same plant that previously refined REEs from Kutessay II ores. The KRP was the only hard rock plant to produce all rare earth elements outside of China, producing 120 different metals, alloys, and oxides. For over 30 years, Kutessay II produced 80% of the rare earth metals for the Former Soviet Union.

We seek safe harbour.
