

# Kyrgyz Supreme Court Rules Previous Holder for Kutessay II has no Legal Claim to Licence

18.11.2014 | [FSCwire](#)

Toronto, Ontario (FSCwire) - [Stans Energy Corp.](#), (TSX-V: HRE, OTCQX: HREEF), is pleased to report that the Supreme Court of Kyrgyzstan has ruled against Baotou Hongbo Technology Company LTD with respect to its claims that it was the rightful owner of the mining licence for Kutessay II and that its licence was taken away illegally and without notification.

This ruling by the Supreme Court of Kyrgyzstan validates the Company's due diligence process before acquisition of the mining licence for Kutessay II in an auction in December 2009, states Rodney Irwin, Interim President and CEO.

## BACKGROUND

Baotou Hongbo Technology Company LTD brought suit against the State Agency for Geology and Mineral Resources of the Kyrgyz Republic (the SGA) intending to reclaim licence rights to Kutessay II. The Inter-district Court of Bishkek ruled in favour of Baotou Technology Company LTD, overlooking significant evidence and ignoring several substantive procedural issues. In September 2013, an appeal by Kutisay Mining LLC and the SGA was heard at the Bishkek City Court. The Bishkek City Court overruled the lower court ruling and held that Baotou had no rights to Kutessay II. Baotou then appealed the Bishkek City Court ruling to the Supreme Court of Kyrgyzstan which has subsequently upheld the City Court ruling.

## About Stans Energy

[Stans Energy Corp.](#) is a resource development company focused on advancing Heavy Rare Earth (HRE) properties in areas of Central Asia and Russia. In December 2009, Stans acquired a 20-year mining license for the past-producing Kutessay II rare earth mine from the Kyrgyz Republic. On May 26, 2011 Stans completed the purchase of the Kashka Rare Earth Processing Plant (KRP) the same plant that previously refined REEs from Kutessay II ores. The KRP was the only hard rock plant to produce all rare earth elements outside of China, producing 120 different metals, alloys, and oxides. For over 30 years, Kutessay II produced 80% of the rare earth metals for the Former Soviet Union.
