

NovX21 Inc. Retains Integral Wealth Securities Limited as Market Maker

25.11.2014 | [Marketwired](#)

MONTREAL, QUEBEC--(Marketwired - Nov 25, 2014) - [NovX21 Inc.](#) ("NovX21" or the "Company") (TSX VENTURE:NOV) is pleased to announce that it has retained Integral Capital Markets, a division of Integral Wealth Securities Limited ("Integral") to provide market-making services in accordance with TSX Venture Exchange ("TSX.V") policies. Integral will trade shares of the Company on the TSX.V for the purposes of maintaining an orderly market and improving the liquidity of the Company's shares.

Integral will not receive shares or options as compensation. However, Integral and its clients may have or may acquire a direct interest in the securities of the Company. NovX21 and Integral are unrelated and unaffiliated entities; Integral is a member of the Investment Industry Regulatory Organization of Canada ("IIROC") and can access all Canadian Stock Exchanges and Alternative Trading Systems. The capital and securities required for any trade undertaken by Integral as principal will be provided by Integral. The Agreement is for an open-ended term of at least six months and may be terminated thereafter on 30 days' notice.

About Integral Capital Markets

Integral Capital Markets provides financing, strategic advisory, and market making services to emerging companies in three principal sectors: oil + gas, metals + mining and diversified industries. The firm also works closely with institutional and high net worth investors who seek attractive risk adjusted returns through participation in these sectors via new issues or the secondary markets.

About NovX21 Inc.

NovX21 operates an industrial prototype plant for the recovery of Platinum Group Elements (Platinum, Palladium and Rhodium, or PGMs). The plant is located near Quebec City in St-Augustin-de-Desmaures. Its patented process yields more than 97% recoveries of PGMs, and is not only much less capital extensive but also operates much more rapidly than conventional plants, thus dramatically lowering the amount of time that its customers' capital is tied up as work-in-process inventory. NovX21's mission is to sustainably recover precious metals by recycling end-of-life PGM containing components while meeting global "green" standards for the automobile industry.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
