Brixton Metals Files NI 43-101 Technical Report

15.12.2014 | Marketwired

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Dec 15, 2014) - Brixton Metals Corp. (TSX VENTURE:BBB) (the "**Company**" or "**Brixton**") is pleased to announce that further to its press release dated October 29, 2014, it has filed a National Instrument 43-101 - *Standards of Disclosure for Mineral Projects* ("**NI 43-101**") technical report titled "Independent Technical Report for the Thorn Project, Sutlahine River Area, British Columbia, Canada" dated December 12, 2014 with an effective date of September 26, 2014 (the "**Technical Report**").

The Technical Report was prepared in accordance with NI 43-101 and Form 43-101F1 by SRK Consulting (Canada) Inc. and is authored by independent Qualified Persons, as defined in NI 43-101. The Technical Report is available under the Company's profile at www.sedar.com.

About Brixton Metals Corporation and its Thorn Project

Brixton is an exploration company focused on the advancement of high-grade precious metal assets to feasibility. Brixton's Thorn project hosts a district scale Triassic to Cretaceous volcanoplutonic complex with several styles of mineralization related to porphyry and epithermal environments. Targets include sediment hosted gold, high-grade silver-gold-lead-zinc-bearing diatreme-breccia zones, high-grade gold-silver-copper veins and porphyry copper-gold-silver. The 28,000-hectare Thorn Project is located in the Sutlahine River area of northwestern British Columbia, Canada, approximately 105 km ENE from Juneau, AK.

Brixton Metals Corp. shares trade on the TSX-V under the ticker symbol **BBB**. For more information about Brixton please visit our website at www.brixtonmetals.com.

On Behalf of the Board of Directors

Mr. Gary R. Thompson, Chairman and CEO

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Information set forth in this news release may involve forward-looking statements under applicable securities laws. Forward-looking statements are statements that relate to future, not past, events. In this context, forward-looking statements often address expected future business and financial performance, and often contain words such as "anticipate", "believe", "plan", "estimate", "expect", and "intend", statements that an action or event "may", "might", "could", "should", or "will" be taken or occur, or other similar expressions. All statements, other than statements of historical fact included herein including, without limitation, statements regarding the proposed exploration, sampling and drilling at Thorn and statements concerning the anticipated results of such exploration work, are forward looking statements. By their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements, or other future events, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the following risks: the need for additional financing; operational risks associated with mineral exploration; fluctuations in commodity prices; title matters; and the additional risks identified in the annual information form of the Company or other reports and filings with the TSX-V and applicable Canadian securities regulators. Forward-looking statements are made based on management's beliefs, estimates and opinions on the date that statements are made and the Company undertakes no obligation to update forward-looking statements if these beliefs, estimates and opinions or other circumstances should change, except as required by applicable securities laws. Investors are cautioned against attributing undue certainty to forward-looking statements.
