

Spyglass Resources Corp. Announces Approval of a Normal Course Issuer Bid by the Toronto Stock Exchange

18.12.2014 | [Marketwired](#)

CALGARY, ALBERTA--(Marketwired - Dec 18, 2014) - [Spyglass Resources Corp. \("Spyglass", or the "Company"\) \(TSX:SGL\)\(OTCQX:SGLRF\)](#) announced today that the Toronto Stock Exchange (the "TSX") has approved the Company's notice of intention to make a normal course issuer bid (the "Bid"). Under the terms of the Bid, Spyglass may acquire up to 12,460,689 of its common shares ("Common Shares") from time to time in accordance with the normal course issuer bid procedures of the TSX, representing approximately 10% of the public float (as that term is defined in the policies of the TSX) as of December 18, 2014.

Repurchases under the Bid may commence on December 22, 2014 and will terminate on December 21, 2015 or on such earlier date as the Bid is complete. Purchases of Common Shares will be made through the facilities of the TSX and other alternative trading platforms. Daily purchases will be limited to 78,295 Common Shares, other than block purchase exemptions, being 25% of the daily average trading volume of the Common Shares on the TSX, being 313,182 Common Shares, from June 1, 2014 to November 30, 2014. The price that the Corporation may pay for any Common Shares purchased under the Bid will be the prevailing market price at the time of purchase and any Common Shares purchased by the Corporation will be cancelled.

The Board of Directors of Spyglass believes that, from time to time, the underlying value of the Corporation may not be reflected in the market price of the Common Shares.

As of December 18, 2014, there were 128,076,720 Common Shares issued and outstanding. The 12,460,689 Common Shares that may be repurchased under the Bid represent 10% of the public float and approximately 9.7% of the issued and outstanding Common Shares on December 18, 2014.

Reader Advisory and Note Regarding Forward-Looking Information

Certain statements contained within this press release, and in certain documents incorporated by reference into this document constitute forward looking statements. These statements relate to future events or future performance. All statements, other than statements of historical fact, may be forward looking statements. Forward looking statements are often, but not always, identified by the use of words such as "seek", "anticipate", "budget", "plan", "continue", "estimate", "expect", "forecast", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe" and similar expressions. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward looking statements.

In particular, this press release contains the following forward looking statements pertaining to, without limitation, the following: Spyglass' (i) future production volumes and the timing of when additional production volumes will come on stream; Spyglass' (ii) realized price of commodities in relation to reference prices; (iii) future commodity mix; (iv) future commodity prices; (v) expectations regarding future royalty rates and the realization of royalty incentives; (vi) expectation of future operating costs on a per unit basis; (vii) the relationship of Spyglass' interest expense and the Bank of Canada interest rates; (viii) future general and administrative expenses; future development and exploration activities and the timing thereof; (ix) deferred tax liability; (x) estimated future contractual obligations; (xi) future liquidity and financial capacity of the Company; (xii) ability to raise capital and to add to reserves through exploration and development; (xiii) ability to obtain equipment in a timely manner to carry out exploration and development activities; (xiv) ability to obtain financing on acceptable terms, and (xv) ability to fund working capital and forecasted capital expenditures. In addition, statements relating to "reserves" or "resources" are deemed to be forward looking statements, as they involve assessments based on certain estimates and assumptions that the resources

and reserves described can be profitably produced in the future.

We believe the expectations reflected in the forward looking statements are reasonable but no assurance can be given that our expectations will prove to be correct and consequently, such forward looking statements included in, or incorporated by reference into, this press release should not be unduly relied upon. These statements speak only as of the date of this press release or as of the date specified in the documents incorporated by reference in this press release. The actual results could differ materially from those anticipated as a result of the risk factors set forth below and elsewhere in this press release which include: (i) volatility in market prices for oil and natural gas; (ii) counterparty credit risk; (iii) access to capital; (iv) changes or fluctuations in production levels; (v) liabilities inherent in oil and natural gas operations; (vi) uncertainties associated with estimating oil and natural gas reserves; (vii) competition for, among other things, capital, acquisitions of reserves, undeveloped lands and skilled personnel; (viii) stock market volatility and market valuation of Spyglass' stock; (ix) geological, technical, drilling and processing capabilities; (x) limitations on insurance; (xi) changes in environmental or legislation applicable to our operations, (xii) our ability to comply with current and future environmental and other laws; (xiii) changes in tax laws and incentive programs relating to the oil and gas industry, and (xiv) the other factors discussed under "Risk Factors" in the Company's 2013 Annual Information Form.

Readers are cautioned that the foregoing lists of factors are not exhaustive. The forward looking statements contained in this press release and the documents incorporated by reference herein are expressly qualified by this cautionary statement. The forward looking statements contained in this press release speak only as of the date thereof and Spyglass does not assume any obligation to publicly update or revise them to reflect new events or circumstances, except as may be required pursuant to applicable securities laws.

Barrel of oil equivalents or BOEs may be misleading, particularly if used in isolation. A BOE conversion ratio of 6 mcf: 1 bbl is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead. As the value ratio between natural gas and crude oil based on the current prices of natural gas and crude oil is significantly different from the energy equivalency of 6:1, utilizing a conversion on a 6:1 basis may be misleading as an indication of value.

This press release shall not constitute an offer to sell, nor the solicitation of an offer to buy, any securities in the United States, nor shall there be any sale of securities mentioned in this press release in any State in the United States in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities law of any such State.
