

Xmet Inc. Completes Second Tranche Financing for \$79,000

24.12.2014 | [Marketwired](#)

TORONTO, Dec 24, 2014 - [Xmet Inc.](#) ("Xmet" or the "Company") (TSX VENTURE:XME) is pleased to announce that it has completed the second tranche of a non-brokered private placement for gross proceeds of \$79,000. This amount represents the balance of funding that was not ready for the closing of our first tranche of financing of \$1,133,000 on November 21st, 2014. The funds will be used to continue the advancement of the Company's Blackflake West and Grasset projects and for working capital.

In relation to this financing Xmet has issued 1,080,000 flow-through units to investors at a price of \$0.05 per unit, with each unit consisting of one common share of Xmet and one-half common share purchase warrant. Each full warrant entitles the holder thereof to acquire one common share of Xmet at a price of \$0.055 at any time until December 24th, 2017. Xmet also has issued 500,000 hard dollar units to investors at a price of \$0.05 per unit, with each unit consisting of one common share of Xmet and one common share purchase warrant. Each full warrant entitles the holder thereof to acquire one common share of Xmet at a price of \$0.055 at any time until December 24th, 2017.

Xmet paid to finders, cash finder's fees of \$3,780 equal to 4.8% of the gross proceeds raised and issued 75,600 compensation options totalling 4.8% of the units issued. Each compensation option entitles the holder to acquire one common share of Xmet at a price of \$0.05 cents at any time until December 24th, 2017. The securities issued in the private placement are subject to a statutory four month hold period expiring on April 25th, 2015.

About Xmet's Blackflake Project

Xmet's Blackflake Project comprises over 30,000 acres of 100% owned claims and over 8,000 acres of fifty percent owned or optioned claims located approximately 60km to the northwest of Hearst, Ontario and is adjacent to Zenyatta's Hydrothermal Graphite Deposit. Xmet has now conducted three airborne electromagnetic surveys, VTEM and TDEM, which discovered multiple electromagnetic conductors making the targets highly prospective for further exploration. Xmet has developed an excellent working relationship with the Constance Lake First Nation, with whom the company signed an ongoing Exploration Agreement. Xmet has received all necessary approvals from the Ministry of Northern Development and Mines to conduct ground geophysics on and to drill the 'All Channel' target.

[Xmet Inc.](#) has the option to earn up to a 60% interest on a portion of the Blackflake West Graphite Project from [Metals Creek Resources Corp.](#) by incurring a series of work commitments on the property as well as cash payments and share issuances as detailed in our May 22nd, 2014 news release. Additional land claims contiguous to the optioned portion of the Blackflake West are either 100% or 50% owned by Xmet Inc.

About Xmet's Grasset Property

In March 2012 Xmet mobilized a geophysical crew onto the property to carry out 28 line km of a gradient induced polarization survey over the interpreted trace of the Detour-Sunday Lake deformation zone. Results of the completed part of the survey were announced on 3 May, 2012. The survey clearly identified a favourable gold target in the survey. Phase two of ground geophysics was completed in March 2013 totalling 68 line km of gradient IP with an additional 8 line km of a detailed pole-dipole survey also covering the SLDZ.
